

Chapter Four

The Colorful World of Synesthesia

| |
|---|
| Synesthesia = (process in which one 9 type of Sensation produces secondary subjective sensation (as when one sees a particular color in response to certain music)) |
| slice = piece, portion, wafer, Section |
| tickling = titillation |
| sensation = feeling, Consciousness |
| sensory = receptive |
| blending= mix, Combine, fuse, or harmonize |
| phenomenon = occurrence |
| occur = happen |
| treasure = Value, appreciate, assess, estimate |
| by accident = by chance |
| glorious = wonderful, elegant |
| gift = present, handout, alms |
| scary= fearful |
| figment = fabrication, fantast, invention, Creation, illusion fancy, vision |
| consistent =Suitable, appropriate, Convenient |
| perceive=understand, realize, recognize |
| merges = mix, integrate |
| gathered = together, collect, Compile, Combine |
| touch- Contact |
| travel = journey, trip, expedition, Voyage (pilgrimage, pilgrim) |
| cortex = peel, Shell |
| region= area, Zone |
| converge = Collect, gather, focus, meet, reunite |
| theory= hypothesis, thesis, opinion, ideas, ideology |
| draw = attraction |
| nearby=not far away, near at hand |
| eventually = Finally, lastly, in the end, ultimately |
| prune= clipping, cut back, trim, cut off |
| institute = organization, Foundation, Academy |
| extra=additional, more, auxiliary |
| scan=Survey |
| diffusion=spread, transmission, redundancy |
| tensor = tighten, strain, tension, |
| tissues = cloth fabric |
| fiber - thread, string, yarn |

| |
|---|
| axon = part of neuron that sends impulses away from the cell(Anatomy) |
| consciousness = awareness, Knowingness |
| rule out = cancel, deny |
| bit - piece, portion, segment |
| variation- difference, diversity |
| pattern= type, style, model |
