### Course Description Form

Field	Details
<b>Course Name:</b>	Human Rights and Democracy
<b>Course Code:</b>	Human Rights and Democracy
<b>Semester / Year:</b>	Annual / Semester – 2025-2026
<b>Description Date:</b>	September 1, 2025
<b>Available Attendance:</b>	In-person
<b>Total Credit Hours / Units:</b>	60 Hours
<b>Course Coordinator(s):</b>	Asst. Prof. Musar Hasan Jassim (musar.hasan@tu.edu.iq), Lect. Khamis Hawas Hajim

#### Course Objectives

- Spreading the concept of human rights, explaining the types of rights and freedoms, and contributing intellectually to the development of this idea.
- Clarifying the stance of international conventions and Iraqi/Arab constitutions regarding these rights.
- Enabling students to review specific topics related to human rights and democracy.

#### Teaching and Learning Strategies

- In-person lectures (two lectures per week) and interactive electronic lectures (Google Meet) as needed.
- Use of modern educational tools and techniques, including PowerPoint.

Week	Hours	Learning Outcomes	Unit / Subject Name	Teaching Method	Assessment Method
1	1	Knowledge & Understanding	Introduction to Human Rights and the national/procedural mechanisms for implementation	Theoretical Lecture	Oral exam, participation, and attendance
2	1	Knowledge & Understanding	Historical development of Human Rights	Theoretical Lecture	Oral exam, participation, and attendance
3	1	Knowledge & Understanding	National and procedural mechanisms for application	Theoretical Lecture	Oral exam, participation, and attendance
4	1	Knowledge & Understanding	Concept of the International Bill of Human Rights	Theoretical Lecture	Oral exam, participation, and attendance

5	1	Knowledge & Understanding	National and procedural mechanisms to implement the International Bill in Iraq	Theoretical Lecture	Oral exam, participation, and attendance
6	1	Knowledge & Understanding	Rights of women, children, minorities, and persons with disabilities in international conventions	Theoretical Lecture	Oral exam, participation, and attendance
7	1	Knowledge & Understanding	Rights of persons with disabilities and minorities	Theoretical Lecture	Oral exam, participation, and attendance
8	1	Knowledge & Understanding	National mechanisms and procedures for applying specific or group rights	Theoretical Lecture	Oral exam, participation, and attendance
9	1	Knowledge & Understanding	Monthly Exam 1	Theoretical Lecture	Oral exam, participation, and attendance
10	1	Knowledge & Understanding	Gross violations of Human Rights	Theoretical Lecture	Oral exam, participation, and attendance
11	1	Knowledge & Understanding	International Humanitarian Law and protection of human rights in conflicts	Theoretical Lecture	Oral exam, participation, and attendance
12	1	Knowledge & Understanding	Gross violations of Human Rights in Iraq	Theoretical Lecture	Oral exam, participation, and attendance
13	1	Knowledge & Understanding	Human Rights Council and protection mechanisms	Theoretical Lecture	Oral exam, participation, and attendance
14	1	Knowledge & Understanding	Review	Theoretical Lecture	Oral exam, participation, and attendance
15	1	Knowledge & Understanding	Monthly Exam 2	Exam	Written Exam
16	1	Knowledge & Understanding	Historical concepts of the origin of democracy and its foundations	Theoretical Lecture	Oral exam, participation, and attendance
17	1	Knowledge & Understanding	Development of democracy in the modern era and its correlates	Theoretical Lecture	Oral exam, participation, and attendance
18	1	Knowledge & Understanding	Democracy in the 20th century between totalitarianism and global expansion	Theoretical Lecture	Oral exam, participation, and attendance
19	1	Knowledge & Understanding	Patterns of democracy and its development in contemporary contexts	Theoretical Lecture	Oral exam, participation, and attendance
20	1	Knowledge & Understanding	Islam and Democracy	Theoretical Lecture	Oral exam, participation, and attendance

21	1	Knowledge & Understanding	Separation of powers and principles of democratic governance	Theoretical Lecture	Oral exam, participation, and attendance
22	1	Knowledge & Understanding	Elections as a mechanism for democracy	Theoretical Lecture	Oral exam, participation, and attendance
23	1	Knowledge & Understanding	Monthly Exam 1	Theoretical Lecture	Oral exam, participation, and attendance
24	1	Knowledge & Understanding	Political Parties	Theoretical Lecture	Oral exam, participation, and attendance
25	1	Knowledge & Understanding	Civil Society and pressure groups	Theoretical Lecture	Oral exam, participation, and attendance
26	1	Knowledge & Understanding	Relationship between democracy and public freedoms	Theoretical Lecture	Oral exam, participation, and attendance
27	1	Knowledge & Understanding	Media and Democracy	Theoretical Lecture	Oral exam, participation, and attendance
28	1	Knowledge & Understanding	Comparative Democratic Systems	Theoretical Lecture	Oral exam, participation, and attendance
29	1	Knowledge & Understanding	Review	Theoretical Lecture	Oral exam, participation, and attendance
30	1	Knowledge & Understanding	Monthly Exam 2	Exam	Written Exam

### Course Description Form

Field	Details
<b>Course Name:</b>	History of Journalism – Second Stage (Journalism)
<b>Course Code:</b>	History of Journalism – Second Stage (Journalism)
<b>Semester / Year:</b>	Annual / Semester – 2025-2026
<b>Description Date:</b>	September 1, 2025
<b>Available Attendance:</b>	In-person
<b>Total Credit Hours / Units:</b>	60 Hours
<b>Course Coordinator(s):</b>	Asst. Prof. Musar Hasan Jassim (musar.hasan@tu.edu.iq) & Asst. Lect. Afrah Ajami

### Course Objectives

- Introducing students to the historical stages through which Iraqi journalism has passed.
- Enabling students to review specific topics related to Iraqi journalism

### Teaching and Learning Strategies

- In-person lectures (two lectures per week) and interactive electronic lectures (Google Meet) as needed.
- Use of modern educational tools and techniques, including PowerPoint.

Week	Hours	Learning Outcomes	Unit / Subject Name	Teaching Method	Assessment Method
<b>Week</b>	<b>Hours</b>	<b>Learning Outcomes</b>	<b>Unit / Subject Name</b>	<b>Teaching Method</b>	<b>Assessment Method</b>

<b>Course Objectives</b>	<ol style="list-style-type: none"> <li>1. Introduction to the basics of photography in general.</li> <li>2. Introducing the basics of radio and television photography in particular.</li> <li>3. Introducing the most important techniques associated with radio and television photography.</li> <li>4. Providing students with the skill of selecting the appropriate image for</li> </ol>

publication in news agencies.

## 9. Teaching and Learning Strategies

- Strategy**
1. Discussion and dialogue.
  2. Practical training.

## 10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
١	٢	Knowing the importance of photography and identifying the qualities of a successful television photographer	The importance of photography and the characteristics of a successful photographer	My theory on using PowerPoint to support the lecture with pictures and videos	Student interaction during the lecture
٢	٢	Defining the concept of photography in general and television photography in particular	Photography concept	My theory on using PowerPoint to support the lecture with pictures and videos	Student interaction during the lecture
٣	٢	The student will be able to understand the mechanisms of photography.	Imaging mechanisms	My theory on using PowerPoint to support the lecture with pictures and videos	Student interaction during the lecture
٤	٢	Identify the basic camera components	The camera and its components	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٥	٢	Know how to use the camera	Practical applications for using the camera	practical	Students' photo productions
٦	٢	Knowing the conditions that must be met in the model image	Conditions that must be met in the model image	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٧	٢	Ability to identify typical TV picture images	Practical applications to achieve a typical image	practical	Student interaction during the lecture
٨	٢	Know the exact concept of digital television imaging	Digital photography	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٩	٢	Knowledge of digital photography techniques	Digital photography techniques	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٠	٢	Practical applications in the field of digital photography	Practical applications in the field of digital photography	practical	Students' photo productions
١١	٢	The importance of lighting in the photography process	The importance of lighting in the photography process	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٢	٢	Practical applications to	Practical applications to	practical	Students' photo

		understand the importance of lighting in the photography process	understand the importance of lighting in the photography process		productions
١٣	٢	The student will be able to identify common lenses in television photography.	Lenses in photography	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٤	٢	The student will be able to use lenses in their correct context.	Practical applications of the importance of lenses in photography	practical	Students' photo productions
١٥	٢	-	First semester exam	-	-
١٦	٢	The student will be able to identify the elements of a television image.	Television picture elements	theoretical	Student interaction during the lecture
١٧	٢	The student will be able to understand the use of images in television arts.	My theory on using PowerPoint to support the lecture with pictures	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٨	٢	The student applies what he has learned about the use of images in television arts in a practical way.	Practical applications of employing images in television arts	practical	Students' photo productions
١٩	٢	The student will be able to identify a television camera and distinguish it from a still camera.	TV camera	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٠	٢	The student learns television filming techniques.	Television imaging techniques	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢١	٢	The student applies what he has learned about television photography in a practical way.	Practical applications in television photography	practical	Students' photo productions
٢٢	٢	The student learns about photography in the field of electronic media.	Photography in the field of electronic media	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٣	٢	The student learns about photography techniques in the field of electronic media.	Imaging techniques in the field of electronic media	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٤	٢	The student applies what he has learned about the process of photography in the field of electronic media.	Practical applications of photography in the field of electronic media	practical	Students' photo productions
٢٥	٢	Learn about the importance of contemporary techniques in the field of television photography.	The importance of contemporary technologies in the field of television photography	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٦	٢	The student applies what he has learned about the fields of modern techniques in television photography.	Practical applications in the fields of modern technologies in television photography	practical	Students' photo productions
٢٧	٢	The student learns about advertising image techniques.	Advertising image techniques	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture

٢٨	٢	The student learns about digital photography using a mobile phone.	Mobile photojournalism	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٩	٢	The student applies what he has learned about digital photography with a mobile phone.	Mobile applications	practical	Students' photo productions
٣٠	٢	-	Second semester exam	-	-

## Course Description Form Digital photojournalism

**9. Teaching and learning strategies**

<p><b>A . Scientific discussion, dialogue, and the use of modern technologies for comprehension and benefit from websites, electronic and paper books.</b></p> <p><b>B . Developing the creative side of students and urging them to keep pace with the technical development of the subject.</b></p> <p><b>Encourage students to participate in modern editing programs.</b></p>	<ul style="list-style-type: none"> <li>– ١ Discussion and dialogue.</li> <li>– ٢ Practical training.</li> <li>– ٣ Scientific trips.</li> <li>– ٤ Create work groups to produce creative material using montage.</li> </ul>
---	--

**10. Course Structure**

<b>Week</b>	<b>H</b>	<b>Required Learning Outcomes</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>
1	٢	Learn the concept and definitions of image and sound editing in both radio and television.	The concept of radio and television editing and its definition	Theoretical + Practical	Echo, student responses and practical outcomes
2	٢	Learn about the functions of photo and audio editing as well as the ethics of photo and audio editing in both radio and television.	Radio and television editing jobs and ethics	Theoretical + Practical	Echo, student responses and practical outcomes

3	۲	Learn about the specifications that a video or audio content editor should have	Specifications of the editor of image and sound in radio and television	Theoretical + Practical	Echo, student responses and practical outcomes
4	۲	Identifying the importance of artistic vision and imagination for the editor of visual and audio content, and the mechanisms for enhancing the aesthetic taste of the image and sound, in addition to identifying the sources of increasing the sense of aesthetics and visual technique for the editor.	Artistic vision in radio and television editing: art and creativity	Theoretical + Practical	Echo, student responses and practical outcomes
5	۲	Learn about the beginnings of montage and the theories of Griffith . Hitchcock – Pudovkin – Erenstein as well as modern theories of montage.	montage theories	Theoretical + Practical	Echo, student responses and practical outcomes
6	۲	Learn about linear television editing and old methods of editing images and videos for television, as well as the characteristics and disadvantages of non-linear editing.	Video Editing Types of TV Editing: Linear montage	Theoretical + Practical	Echo, student responses and practical outcomes

7	۲	non-linear television editing that relies on modern technology and uses computers to edit images and videos for television, about the positive and negative characteristics of linear editing.	of television editing :Nonlinear montage	Theoretical + Practical	Echo, student responses and practical outcomes
8	۲	Learn about camera types and the importance of matching image sources and shooting mode 9/16 or 9/14	Camera and types of images in television editing	Theoretical + Practical	Echo, student responses and practical outcomes
9	۲	Learn about the most important television editing programs, their features, and the differences between the most prominent ones.	The most important television editing programs and their features	Theoretical + Practical	Echo, student responses and practical outcomes
10	۲	about Adobe Premiere TV editing programs	TV editing with Adobe Premiere	Theoretical + Practical	Echo, student responses and practical outcomes
11	۲	Learn about the features of Adobe Premiere, a theoretical lecture with practical applications	Features of TV editing with Adobe Premiere	Theoretical + Practical	Echo, student responses and practical outcomes
12	۲	Learn how to open a new project to edit in Premiere, as well as save the project. A theoretical lecture with practical applications.	(Open Premiere Project	Theoretical + Practical	Echo, student responses and practical outcomes

13	۲	Learn about the types of shots movements, how to move and compose the scene. A theoretical lecture with practical applications.	Transition between shots	Theoretical + Practical	Echo, student responses and practical outcomes
۱۴	۲	Learn about the types of sounds and how to use and integrate them in the editing process, as well as learn about the types of sound effects and their use in television editing. A theoretical lecture with practical applications.	Sound... its types and use in montage	Theoretical + Practical	Echo, student responses and practical outcomes
15	۲	Learn the process of performing audio-visual imaging with multiple cameras. A theoretical lecture with practical applications.	Work of the dress Audio mixing and volume level	Theoretical + Practical	Echo, student responses and practical outcomes
16	۲	Practical applications	Practical applications on audio editing and how to match the image	Theoretical + Practical	Echo, student responses and practical outcomes
17	۲	Learn about the types of visual effects and how to use them in television editing, in addition to using filters. A theoretical lecture with practical applications.	Visual effects and using video filters	Theoretical + Practical	Echo, student responses and practical outcomes
18	۲	Learn about slow motion and its use in editing. A theoretical lecture with practical applications.	Slow Motion and Fast Motion Usage Objectives and Applications	Theoretical + Practical	Echo, student responses and practical outcomes

19	۲	Learn about the background ) Chroma key and how to color isolate the background chroma key and benefit from it in editing still and moving images. The background is a theoretical lecture with practical applications.	Chroma key (background editing	Theoretical + Practical	Echo, student responses and practical outcomes
20	۲	Learn how to color correct video images. A theoretical lecture with practical applications.	correction in montage	Theoretical + Practical	Echo, student responses and practical outcomes
21	۲	Learn how to create texts (captions, titles , coloring, and changing text sizes. A theoretical lecture with practical applications.	Using titles, text and creating a table	Theoretical + Practical	Echo, student responses and practical outcomes
22	۲	Learn about the programs that support television editing, such as Adobe Photoshop - 3D Max - After Effects , and the features of each program.	Programs supporting television editing	Theoretical + Practical	Echo, student responses and practical outcomes
23	۲	Learn about the importance of the work script and how the editor deals with different types of texts and scenarios.	Script work and montage	Theoretical + Practical	Echo, student responses and practical outcomes
24	۲	Identify and produce the final vision for the work.	Final output of the work	Theoretical + Practical	Echo, student responses and practical outcomes

25	۲	Learn how the ) Capture works after the montage process is completed, as well as learn about the types of preservation dyes and the type and quality of the (TV picture quality (image.	(Capture )operation (and types of saving formats and type and quality of the image ( TV picture quality (	Theoretical + Practical	Echo, student responses and practical outcomes
26	۲	Learn about editing with smartphone programs, its features and its importance in modern journalism	Editing with smartphone programs	Theoretical + Practical	Echo, student responses and practical outcomes
27	۲	Learn photo editing via smartphone and practical applications by all students with their phones	Image and audio editing process with smartphone programs	Theoretical + Practical	Echo, student responses and practical outcomes
28	۲	Learn how to produce a short film by filming and editing it with a smartphone, and a practical application by all students using their phones.	How to make mobile movies	Theoretical + Practical	Echo, student responses and practical outcomes
29	۲	Learn about radio editing programs and the importance of imagination and conveying the image through sound	Editing in radio	Theoretical + Practical	Echo, student responses and practical outcomes
30	۲	Learn about the most commonly used audio editing programs, as well as learn about the technology of audio editing via computer ) Adobe Audition ) using the Adobe Audition program practical applications, and perform some exercises and listen to them.	The most important audio editing programs and audio editing technology via computer Adobe Audition program , features and applications	Theoretical + Practical	Echo, student responses and practical outcomes

31	2	<p><b>Learn about the processes of recording, composing and sequencing, as well as the use and application of music and sound effects, and the mixing process. Practical applications (performing some exercises and listening to them.</b></p>	<p><b>Sound recording, composition , arrangement, sequencing, and use of music and sound effects.</b></p>	<p><b>Theoretical + Practical</b></p>	<p><b>Echo, student responses and practical outcomes</b></p>
----	---	---	---	---------------------------------------	--

## Course Description Form

1. Course Name:	
Digital photography	
2. Course Code:	
3. Semester / Year:	
annual	
4. Description Preparation Date:	
٢٠٢٦-٢٠٢٥	
5. Available Attendance Forms:	
In-person - Weekly	
6. Number of Credit Hours (Total) / Number of Units (Total)	
(60) hours / 30 units	
7. Course administrator's name (mention all, if more than one name)	
Name: Email: Mustafa.yaseen@tu.edu.iq	
8. Course Objectives	
<b>Course Objectives</b>	<ol style="list-style-type: none"><li>1. Introduction to the basics of photography in general.</li><li>2. Introducing the basics of radio and television photography in particular.</li><li>3. Introducing the most important techniques associated with radio and television photography.</li><li>4. Providing students with the skill of selecting the appropriate image for publication in news agencies.</li></ol>
9. Teaching and Learning Strategies	

<b>Strategy</b>	1. Discussion and dialogue. 2. Practical training.
-----------------	---

### 10. Course Structure

<b>Week</b>	<b>Hours</b>	<b>Required Learning Outcomes</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>
١	٢	Knowing the importance of photography and identifying the qualities of a successful television photographer	The importance of photography and the characteristics of a successful photographer	My theory on using PowerPoint to support the lecture with pictures and videos	Student interaction during the lecture
٢	٢	Defining the concept of photography in general and television photography in particular	Photography concept	My theory on using PowerPoint to support the lecture with pictures and videos	Student interaction during the lecture
٣	٢	The student will be able to understand the mechanisms of photography.	Imaging mechanisms	My theory on using PowerPoint to support the lecture with pictures and videos	Student interaction during the lecture
٤	٢	Identify the basic camera components	The camera and its components	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٥	٢	Know how to use the camera	Practical applications for using the camera	practical	Students' photo productions
٦	٢	Knowing the conditions that must be met in the model image	Conditions that must be met in the model image	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٧	٢	Ability to identify typical TV picture images	Practical applications to achieve a typical image	practical	Student interaction during the lecture
٨	٢	Know the exact concept of digital television imaging	Digital photography	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٩	٢	Knowledge of digital photography techniques	Digital photography techniques	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٠	٢	Practical applications in the field of digital photography	Practical applications in the field of digital photography	practical	Students' photo productions
١١	٢	The importance of lighting in the photography process	The importance of lighting in the photography process	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٢	٢	Practical applications to understand the importance of lighting in the photography process	Practical applications to understand the importance of lighting in the photography process	practical	Students' photo productions
١٣	٢	The student will be able to identify common lenses in television photography.	Lenses in photography	My theory on using PowerPoint to support the lecture	Student interaction during the lecture

				with pictures	
١٤	٢	The student will be able to use lenses in their correct context.	Practical applications of the importance of lenses in photography	practical	Students' photo productions
١٥	٢	-	First semester exam	-	-
١٦	٢	The student will be able to identify the elements of a television image.	Television picture elements	theoretical	Student interaction during the lecture
١٧	٢	The student will be able to understand the use of images in television arts.	My theory on using PowerPoint to support the lecture with pictures	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
١٨	٢	The student applies what he has learned about the use of images in television arts in a practical way.	Practical applications of employing images in television arts	practical	Students' photo productions
١٩	٢	The student will be able to identify a television camera and distinguish it from a still camera.	TV camera	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٠	٢	The student learns television filming techniques.	Television imaging techniques	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢١	٢	The student applies what he has learned about television photography in a practical way.	Practical applications in television photography	practical	Students' photo productions
٢٢	٢	The student learns about photography in the field of electronic media.	Photography in the field of electronic media	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٣	٢	The student learns about photography techniques in the field of electronic media.	Imaging techniques in the field of electronic media	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٤	٢	The student applies what he has learned about the process of photography in the field of electronic media.	Practical applications of photography in the field of electronic media	practical	Students' photo productions
٢٥	٢	Learn about the importance of contemporary techniques in the field of television photography.	The importance of contemporary technologies in the field of television photography	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٦	٢	The student applies what he has learned about the fields of modern techniques in television photography.	Practical applications in the fields of modern technologies in television photography	practical	Students' photo productions
٢٧	٢	The student learns about advertising image techniques.	Advertising image techniques	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٨	٢	The student learns about digital photography using a mobile phone.	Mobile photojournalism	My theory on using PowerPoint to support the lecture with pictures	Student interaction during the lecture
٢٩	٢	The student applies what he has learned about digital	Mobile applications	practical	Students' photo productions

		photography with a mobile phone.			
३०.	२	-	Second semester exam	-	-

## Course Description Form - Communication theories

1. Course Name:
Public Relations
2. Course Code:
PR20
3. Semester / Year:
Annual
4. Description Preparation Date:
1/9/2025
5. Available Attendance Forms:
In - person
6. Number of Credit Hours (Total) / Number of Units (Total):
45
7. Course administrator's name (mention all, if more than one name)
Assist. Lecturer <b>Haseeb Khalaf Muhemed</b> Assist. Lecturer <b>Hasan Abdullah Salim</b>  Email: haseib.kh@tu.edu.iq
8. Course Objectives
<p>The objective of this course is to provide students with a comprehensive historical background about the emergence and development of public relations in Iraq, the Arab world, and internationally. It also explains the stages through which public relations has developed up to the present day and how public relations interacts with the organization's audiences in order to serve institutional goals, as well as introducing the fundamental principles of public relations.</p>
9. Teaching and Learning Strategies
<ol style="list-style-type: none"><li>1. Assigning the student to prepare worksheets, reports, and advance preparation for the upcoming lecture in order to ensure his participation and scientific interaction with the class contributions.</li><li>2. Preparing some lectures that require a specific focus on the (Power Point) file, presenting them to the students in the (Data Show) manner, and attaching them to pictures, data, and illustrative pens related to the scientific subject.</li></ol>
10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Concept and definition of public relations	Understanding the concept of public relations)	Explanation and examples	Exam + discussion
2	2	Emergence and development of public relations	the emergence and development of public relations	Explanation and examples	Exam + discussion
3	2	Public relations in Arab and Islamic heritage	Understanding PR in Arab heritage	Explanation and examples	Exam + discussion
4	2	Modern public relations	Understanding modern public relations	Explanation and examples	Exam + discussion
5	2	Importance of public relations	Understanding the importance of PR	Explanation and examples	Exam + discussion
6	2	Ivy Lee's contributions to public relations	Identifying PR pioneers	Explanation and examples	Exam + discussion
7	2	Public relations and related sciences (Management – Media)	Recognizing related sciences	Explanation and examples	Exam + discussion
8	2		Monthly exam		
9	2	Objectives of public relations	Identifying PR objectives	Explanation and examples	Exam + discussion
10	2	Difference between PR, propaganda and advertising	Distinguishing PR from other fields	Explanation and examples	Exam + discussion
11	2	Research and information gathering	Understanding research role	Explanation and examples	Exam + discussion
12	2	Public relations strategy	Understanding PR strategies	Explanation and examples	Exam + discussion
13	2	Communication – Leadership – Coordination – Evaluation	Understanding PR work stages	Explanation and examples	Exam + discussion
14	2	Public relations campaigns	Understanding PR campaigns	Explanation and examples	Exam + discussion
15	2		Monthly exam		
16	2	Planning and preparing PR campaigns	Understanding PR planning	Explanation and examples	Exam + discussion
17	2	Professionalism in public relations	Understanding professionalism	Explanation and examples	Exam + discussion
18	2	Ethics in public relations	Understanding ethics	Explanation and examples	Exam + discussion
19	2	Public relations manager	Recognizing PR manager role	Explanation and examples	Exam + discussion
20	2	Characteristics of a PR manager	Understanding manager characteristics	Explanation and examples	Exam + discussion

21	2	Public relations and public opinion	Understanding PR and public opinion	Explanation and examples	Exam + discussion
22	2	Characteristics of public opinion	Understanding characteristics of public opinion	Explanation and examples	Exam + discussion
23	2		Monthly exam		
24	2	Public relations audiences	Understanding PR audiences	Explanation and examples	Exam + discussion
25	2	Communication tools in public relations	Understanding communication tools	Explanation and examples	Exam + discussion
26	2	Direct communication methods	Understanding direct methods	Explanation and examples	Exam + discussion
27	2	Printed and written media	Understanding printed media	Explanation and examples	Exam + discussion
28	2	Audio and visual media	Reinforcement theory	Explanation and examples	Exam + discussion
29	2	Internet in public relations	Understanding internet role	Explanation and examples	Exam + discussion
30	2		Monthly exam		

<b>Learning and teaching resources</b>	
Introduction to Public Relations and Communication Dr. Abdul Karim Sarhan / Aida Fakhr Al-Din	Required textbooks (methodology)
Family Relations in the Context of Social Media Addiction Abdul Ghani Ahmed Ali	Main references (sources)
Specialized scientific research in public relations	Recommended supporting books and references (scientific journals, reports....)
Various online websites available for academic use.	Electronic references, Internet sites

## Course Description Form

1. Course Name:	
The Art of Reporting	
2. Course Code:	
In-person and Electronic	
3. Semester / Year:	
First and Second Semesters	
4. Description Preparation Date:	
Media Department	
5. Available Attendance Forms:	
6. Number of Credit Hours (Total) / Number of Units (Total)	
Annual theoretical hours and 30 practical hours	
7. Course administrator's name (mention all, if more than one name)	
Name: Email: Original: Teacher Waqas Saadi Mahdi ..... Waqas.sadi@t ..... u.edu.iq ..... Alternate: Teaching assistant Alaa	
8. Course Objectives	
<b>Course Objectives</b>	<ul style="list-style-type: none"> <li>• To enable students to write grammatically and technically correct news articles that meet the needs of the public.</li> <li>•</li> <li>• To define news and its news value.</li> <li>•</li> <li>• To introduce the types of news: simple, complex, direct, indirect, local, and international.</li> <li>• To equip students with the necessary skills in journalistic</li> </ul>

writing.

## 9. Teaching and Learning Strategies

<b>Strategy</b>	<p>1- To enable students to acquire and better understand theoretical material.</p> <p>2- To prepare students to be future media professionals capable of editing news professionally.</p> <p>3- To produce students capable of discussing all topics related to news writing.</p> <p>1. The student's ability to gather and verify information.</p> <p>2. News editing skills (practical application).</p> <p>3. Crafting engaging and expressive headlines.</p> <p>4. Assessment methods: Includes theoretical tests and practical applications (news editing).</p> <p>1. To teach professional journalistic writing.</p> <p>2. To teach skills in analyzing, evaluating, and interpreting media messages through media-conscious thinking.</p> <p>3. To instill professionalism, values, and ethics in dealing with news.</p> <p>4. To motivate students to learn how to utilize media in news reporting.</p>
-----------------	--

## 10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Theoretical knowledge and practical applications	The concept of news in light of social responsibility theory	Explanation and discussion	Participation grades
2	2		The Liberal and Socialist Concepts of News	Explanation and discussion	Participation grades
3	2	Theoretical knowledge and practical applications	The Arab Concept of News	Explanation and discussion	Participation grades
4	2		The Concept of News in Developing Countries	Explanation and discussion	Participation grades
5	2	Theoretical knowledge and practical applications	Elements and Characteristics of News	Explanation and discussion	Participation grades
6	2	Theoretical knowledge and practical applications	Types of News	Explanation and discussion	Participation grades
7	2	Theoretical knowledge and practical applications	Introducing News Sources	Explanation and discussion	Participation grades
8	2	Theoretical knowledge and practical applications	Journalistic Coverage of News	Explanation and discussion	Participation grades
9	2	Theoretical knowledge and practical applications	Completing the News Story	Explanation and discussion	Participation grades
10	2	Theoretical knowledge and practical applications	Artistic Forms of the News Story	Explanation and discussion	Participation grades
11	2	Theoretical knowledge and practical applications	The Liberal and Socialist Concepts of News	Explanation and discussion	Participation grades
12	2	Theoretical knowledge and	Artistic Forms of News	Explanation and	Participation

		practical applications		discussion	grades
13	2	Theoretical knowledge and practical applications	General Discussion of Topics Covered in	Explanation and discussion	Participation grades
14	2	Theoretical knowledge and practical applications	Chapter 1 Midterm Exam	Explanation and discussion	Participation grades
15	2	Theoretical knowledge and practical applications	The concept of news in light of social responsibility theory	Multiple choice and essay questions	Applying scientific testing standards
16	2	Theoretical knowledge and practical applications	News Reports	Explanation and discussion	Participation grades
17	2	Theoretical knowledge and practical applications	The Concept of News in Light of Social Responsibility Theory	Explanation and discussion	Participation grades
18	2	Theoretical knowledge and practical applications	The Liberal and Socialist Concepts of News	Explanation and discussion	Participation grades
19	2	Theoretical knowledge and practical applications	News Completion	Explanation and discussion	Participation grades
20	2	Theoretical knowledge and practical applications	News Introduction	Explanation and discussion	Participation grades
21	2	Theoretical knowledge and practical applications	Types of News Introductions	Explanation and discussion	Participation grades
22	2	Theoretical knowledge and practical applications	News Headlines	Explanation and discussion	Participation grades
23	2	Theoretical knowledge and practical applications	News Headlines	Explanation and discussion	Participation grades
24	2	Theoretical knowledge and practical applications	The Difference Between Concept and Terminology	Explanation and discussion	Participation grades
25	2	Theoretical knowledge and practical applications	Challenges of New Media	Explanation and discussion	Participation grades
26	2	Theoretical knowledge and practical applications	The Linguistic Difference Between "News" and "Tell-Talk"	Explanation and discussion	Participation grades
27	2	Theoretical knowledge and practical applications	News in Terminology	Explanation and discussion	Participation grades
28	2	Theoretical knowledge and practical applications	News Reports	Explanation and discussion	Participation grades
29	2	Theoretical knowledge and practical applications	General Discussion of Topics Covered in	Explanation and discussion	Participation grades
30	2	Measuring knowledge	Chapter 1 Midterm Exam	Multiple choice and essay questions	Applying scientific testing standards

# Course Description Form

## Digital Media Education – English Version

<b>1. Course Name:</b>	Digital Media Education
<b>2. Course Code:</b>	Digital Media Education
<b>3. Semester / Year:</b>	Annual – 2025-2026
<b>4. Description Preparation Date:</b>	1/10/2025
<b>5. Available Attendance Forms:</b>	In-person / Direct Attendance
<b>6. Total Study Hours / Total Units:</b>	120 Hours
<b>7. Course Supervisor Name(s):</b>	Eng. Jalal Faris Ahmed Asst. Lect. Qusay Ali Mahmoud

### 8. Course Objectives

1. Encourage and develop scientific research in the field of digital media education in general.
2. Offer distinguished academic programs in the field of digital work in general, and the Photoshop program in particular, in compliance with international standards of academic quality to meet the needs of the media sector with highly qualified staff.
3. Prepare and qualify specialized students to meet the demands of the labor market in both the private and public media sectors, through diversified teaching and learning methods and training students to apply acquired knowledge and skills.
4. Encourage research programs and participation in scientific conferences and seminars.
5. Build a motivating environment for faculty members to develop their educational and research knowledge and skills. Build and develop partnerships with governmental, private and civil society institutions.

### 9. Teaching and Learning Strategies

#### A. Knowledge and Understanding:

- A1 – Scientific discussion and dialogue, using modern technologies, benefiting from internet sites, and electronic and printed books.
- A2 – Developing the creative aspect of students and encouraging them to keep pace with the technical developments related to the subject.
- A3 – Encouraging students to participate in digital media education programs.
- A4 – Measuring student participation in working on the fake news detection program.
- A5 – Adherence to deadlines for submitting individual and group homework and training programs.

## 10. Course Structure

Week	Hours	Unit Name / Learning Outcomes	Topic	Teaching Method
<b>First Semester</b>				
Week 1	3	Digital Media Education	Concept of Media and Digital Education	Theoretical
Week 2	3	Digital Media Education	Why Media and Digital Education?	Theoretical
Week 3	3	Digital Media Education	Citizenship / Global Citizenship, Digital Citizenship	Theoretical
Week 4	3	Digital Media Education	Political and Commercial Pressures on Arab Media (Political Funding Industry)	Theoretical
Week 5	3	Digital Media Education	The Citizen Journalist	Theoretical
Week 6	3	Digital Media Education	Sectarian Discourse, Hate Speech and Incitement	Theoretical
Week 7	3	Digital Media Education	Practical Applications: How to Create a Flickr Account	Theoretical
Week 8	3	-	Framing Theory	Theoretical
Week 9	3	Digital Media Education	Practical & Scientific Applications of Internet Browsing – Advanced Search	Theoretical
Week 10	3	Digital Media Education	Debate and Argumentation	Theoretical
Week 11	3	Digital Media Education	Stereotyping (Gender, Cultural Attitudes and Sexual Ideologies)	Theoretical
Week 12	3	Digital Media Education	Marketing / Sports Marketing Models	Theoretical
Week 13	3	Digital Media Education	Practical Applications in Photo Editing – Pixlr	Theoretical
Week 14	3	Digital Media Education	Newsroom Management (The Gap Between Data and Information)	Theoretical
<b>Week 15 (Second Semester)</b>	-	-	<b>Mid-Year Exam</b>	-
<b>Second Semester</b>				
Week 1	3	Digital Media Education	Practical Applications – Storify	Theoretical
Week 2	3	Digital Media Education	Practical Applications – Instagram Audiogram	Theoretical
Week 3	3	Digital Media Education	Humanitarian Media: Camp Journalism (Refugee and Displacement Coverage ... Full Humanitarian Coverage with Professional Follow-up)	Theoretical
Week 4	3	Digital Media Education	Children as Media Material for Political Propaganda	Theoretical
Week 5	3	Digital Media Education	Verifying Public Figures' Statements	Theoretical
Week 6	3	Digital Media Education	Practical Applications in Reflective Writing	Theoretical

Week	Hours	Unit Name / Learning Outcomes	Topic	Teaching Method
Week 7	3	Digital Media Education	Blogs and Blogging	Theoretical
<b>Week 8</b>	<b>3</b>	<b>-</b>	<b>First Exam</b>	<b>-</b>
Week 9	3	Digital Media Education	Practical Applications – Creating a Blog	Theoretical
Week 10	3	Digital Media Education	Ideology	Theoretical
Week 11	3	Digital Media Education	Theoretical Approaches to Media Ideology	Theoretical
Week 12	3	Digital Media Education	Practical Applications in Critical Image Analysis	Theoretical
Week 13	3	Digital Media Education	Practical Applications: Media Content Production	Theoretical
Week 14	3	Digital Media Education	Media and Critical Thinking	Theoretical
<b>Week 15</b>	<b>3</b>	<b>-</b>	<b>Second Exam</b>	<b>-</b>

## 11. Course Evaluation

- Short quizzes, homework assignments, and semester/final exams for theoretical and practical subjects.
- Small in-class projects, reports, lecture interaction, and extracurricular activities.

## 12. Learning and Teaching Resources

<b>Required Textbooks (Curriculum, if available):</b>	Media Education and Information Technology – Adopted by Macao
<b>Main References (Sources):</b>	Media Education Between Theory and Practice – Mohammed Abdul Hamid
<b>Recommended Supporting Books &amp; References (Scientific Journals, Reports...):</b>	The Media Researcher Journal – University of Baghdad The Arab Journal of Media and Communication
<b>Electronic References &amp; Websites:</b>	Websites of International Media Education Organizations Digital Media Education Training Websites

## Course Description Form

1. Course Name:	
<b>Media Economics</b>	
2. Course Code:	
3. Semester / Year:	
<b>StageSecondAcademic year 20252026</b>	
4. Description Preparation Date:	
<b>1/3/2026</b>	
5. Available Attendance Forms:	
<b>My presence</b>	
6. Number of Credit Hours (Total) / Number of Units (Total)	
<b>Two hours per week</b>	
7. Course administrator's name (mention all, if more than one name)	
Name <b>Prof. Dr. Abdulrahman Mahmoud Mohammed</b> Email: <b>abd_alrahman6447@tu.edu.iq</b> Name : <b>assistant lecturer. Mustafa Mohammed Suhail</b> Email : <b>Mustafa.M.suhail@tu.edu.iq</b>	
..... .....	
8. Course Objectives	
<b>Course Objectives</b> 1- Providing students with their assigned scientific sources 2- Providing students with accurate information about the vocabulary they will study 3- Students seeking the help of their teachers to extract scientific material 4- Knowing students' abilities and scientific potential 5- Motivating and encouraging students to research, analyze and conclude 6- Linking the program with other sciences related to the specialization 7- Expanding students' horizons in order to create a new generation of researchers who contribute to developing the tourism sector	<ul style="list-style-type: none"><li>•</li><li>•</li><li>•</li></ul>
9. Teaching and Learning Strategies	

<b>Strategy</b>	1- Presentation, discussion and questioning methods 2- Motivating students' skills and abilities 3- Working as a team 4- Developing the college's research plan in line with the department's vision and mission 5- Raising the level of human cadres in the scientific department

## Course Description Form

<b>1. Course Name:</b>						
Journalistic Editing - The Art of Investigative Journalism and Interviews						
<b>2. Course Code:</b>						
T p. 2						
<b>3. Semester / Year:</b>						
Second Stage - Journalism - Academic Year 202 <sup>o</sup> -202 <sup>l</sup>						
<b>4. Description Preparation Date:</b>						
<b>5. Available Attendance Forms:</b>						
Daily attendance						
<b>6. Number of Credit Hours (Total) / Number of Units (Total)</b>						
96						
<b>7. Course administrator's name (mention all, if more than one name)</b>						
Name: Email: Prof. Jamal Asker Modhe Asst. Lect. Aws Raheem						
<b>8. Course Objectives</b>						
This course aims to give students a complete understanding of the art of investigative journalism and the art of journalistic interviews, and to develop students' ability to write investigative journalism and how to conduct interviews and press interviews through theoretical and practical lessons during which students conduct hypothetical investigations and journalistic interviews with artistic, political and social figures.						
<b>9. Teaching and Learning Strategies</b>						
1. Lectures. 2. Class discussions. 3. Assign students worksheets, reports, and advance preparation for the upcoming lecture to ensure their participation and academic engagement in class. 4. Prepare some lectures that require a specific focus in a PowerPoint file and present them to students using a data show, accompanied by images, data, and explanatory notes related to the academic material.						
<b>10. Course Structure</b>						
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method	
1	3	The student should understand the nature of investigative journalism.	The Concept of Investigative Journalism	Lecture and Explanation	Student interaction during the lecture	

2	۳	Know the relationship between investigation and other journalistic disciplines.	The Relationship of Investigation to Journalistic Arts	Lecture and Explanation	Student interaction during the lecture
3	۳	Know the importance of investigative journalism.	The Importance of Investigative Journalism	Lecture and Explanation	Student interaction during the lecture
4	۳	Know the characteristics and types of investigative journalism.	Characteristics and Types of Investigative Journalism	Conducting Press Interviews	Student interaction during the lecture
5	۳	Know the objectives of investigative journalism.	Goals of Investigative Journalism	Lecture and Explanation	Student interaction during the lecture
-8-6	۹	Know the qualifications of an investigative journalist.	Qualifications of Investigative Journalist (Monthly Exam) s	Conducting Written Press Investigations	Practical writing and monthly evaluation
9	۳	Know the functions of investigative journalism.	Duties of Investigative Journalism	Lecture and Explanation	Student interaction during the lecture

## Course description template for Electronic Journalism - Second Stage

12. Course Name:
Electronic journalism
13. Course code :
٢٣٨ .
14. Chapter / Year:
annual
15. Date this description was prepared
٢٠٢٦-٢٠٢٥
16. Available attendance formats :
Weekly - In person
17. Number of study hours (total) / Number of units) total:(
٦٠hours
18. Name of the course coordinator (if there is more than one, please mention it.(
M. Abdullah Jassim Mohammed M.M. Jassim Mohammed Khalaf
19. Course objectives
<p>1- Encouraging and developing scientific research in the field of journalism in general.</p> <p>-٢Providing distinguished academic programs in the field of journalism in general and electronic journalism in particular, in accordance with international quality standards.</p> <p>The academy aims to meet the needs of the media sector with highly qualified personnel.</p> <p>-٣ Preparing and qualifying specialized students to meet the work requirements in the private and public sectors in the field of media through diversification of methods</p> <p>Learning, teaching, and training students to apply acquired knowledge and skills.</p> <p>-٤Encouraging research programs and participation in scientific conferences and seminars.</p> <p>-٥Creating a stimulating environment for faculty members to develop their teaching and research knowledge and skills - Building and developing partnerships with sectors Governmental ,private, and society with all its various institutions.</p>
20. Teaching and learning strategies
-١Cognitive objectives
<b>A1- The student learns about old and modern mass communication methods, how to communicate</b>

and what the most important means are for that.

**A2– It traces the development of mass communication methods with an introduction to integrating the student’s theoretical and practical experience in media production.**

– √**The specific skill objectives of the course.**

**B1– Compare the different stages of the development of mass communication.**

**B2– Planning to conduct research related to the development of communication methods and link it to one of the theories.**

–√**Teaching and learning methods**

**\*Lectures.**

**\*Discussions within the lecture.**

**\*Theoretical and practical tests.**

**Interactive participation methods**

**PowerPoint presentation**

- √**Affective and value-based objectives**

**A1-Attention:** To attract the attention of the students by implementing one of the applied programs on the display screen in the hall.

**Q2 - Response:** Monitoring the student's interaction with the material displayed on the screen.

**Q3 - Attention:** Follow up on the interest of the student who interacted more with the presented material, by increasing this interaction by requesting other programs and applications to present it.

**C4- Developing an attitude:** This means that the student is sympathetic to the presentation and may have an opinion regarding the topic.

The offer is presented and defended.

**Q5 - Forming value-based behavior:** meaning that the student reaches the top of the emotional ladder so that he has a stable level in the lesson and does not become lazy or bored with the methods of teaching and learning.

## 21. Course structure

<b>Evaluation Method</b>	<b>Learning method</b>	<b>Unit or topic name</b>	<b>Required learning outcomes</b>	<b>Hours</b>	<b>Week</b>
Theory tests	A theoretical lecture presented on PowerPoint	Electronic publishing: concept and features	Understanding electronic publishing and its features	2	
Theory tests	A theoretical lecture presented on PowerPoint	Forms of electronic publishing	Understanding the forms of electronic publishing	2	
Theory tests	A theoretical lecture presented on PowerPoint	The impact of electronic publishing in the Arab press	Understanding the effects of electronic publishing	2	
Theory tests	A theoretical lecture presented on PowerPoint	The electronic transformation of journalism	Understanding the stages of digital transformation	2	

Theory tests	A theoretical lecture presented on PowerPoint	The concept and definition of electronic journalism	Understanding the concept of electronic journalism and its most important definitions	2	
Theory tests	A theoretical lecture presented on PowerPoint	The emergence and development of electronic journalism	Understanding the origins and development of electronic journalism	2	
Theory tests	A theoretical lecture presented on PowerPoint	Types of electronic journalism	Identifying the types of electronic newspapers	2	
Theory tests	A theoretical lecture presented on PowerPoint	Characteristics and features of electronic journalism	Knowing its characteristics and features	2	
Theory tests	A theoretical lecture presented on PowerPoint	Disadvantages of online journalism	Identifying its disadvantages	2	
Theory tests	A theoretical lecture presented on PowerPoint	Determinants of the success and challenges of online journalism	Knowing its determinants	2	
Theory tests	A theoretical lecture presented on PowerPoint	The challenges it faces	Identifying its main challenges	2	
Theory tests	A theoretical lecture presented on PowerPoint	Determinants of the relationship between print and digital journalism	Identifying the defining characteristics of authenticity between print and digital media	2	
Theory tests	A theoretical lecture presented on PowerPoint	News networks	Getting to know news networks	2	
Theory tests	A theoretical lecture presented on PowerPoint	Professional standards for online journalism	Knowing its professional standards	2	
Theory tests	A theoretical lecture presented on PowerPoint	First semester exam	Exam preparation	2	
Theory tests	A theoretical lecture presented on PowerPoint	Features of designing an electronic newspaper	Identifying its features	2	
Theory tests	A theoretical lecture presented on PowerPoint	Website building requirements	Understanding the requirements for building websites	2	
Theory tests	A theoretical lecture	Evolution and types of websites	Understanding its types and stages of	2	

	presented on PowerPoint		development		
Theory tests	A theoretical lecture presented on PowerPoint	Electronic journalism in the Arab world	Getting to know Arab online journalism	2	
Theory tests	A theoretical lecture presented on PowerPoint	Electronic journalism in Iraq	Iraqi electronic journalism	2	
Theory tests	A theoretical lecture presented on PowerPoint	Virtual communities ( Metaverse , virtual reality and augmented reality + the use of cross- media technology(	Getting to know virtual communities	2	
Theory tests	A theoretical lecture presented on PowerPoint	social media sites	Understanding social media platforms	2	
Theory tests	A theoretical lecture presented on PowerPoint	A lab for creating Facebook, Twitter , and YouTube pages and uploading their content.	Learn how to set up a social media page	2	
Theory tests	A theoretical lecture presented on PowerPoint	Planning for an online newspaper or news website project	Learn about the format of an electronic newspaper	2	
Theory tests	A theoretical lecture presented on PowerPoint	Preparing a multimedia report	Teaching students how to prepare a multimedia report	2	
Theory tests	A theoretical lecture presented on PowerPoint	Discussion of news stories written and edited by students on websites	Introducing them to how to discuss news stories	2	
Theory tests	A theoretical lecture presented on PowerPoint	Multimedia news editing	Defining how to edit online news	2	
Theory tests	A theoretical lecture presented on PowerPoint	Mobile applications	Introducing them to mobile phone applications	2	
Theory tests	A theoretical lecture presented on PowerPoint	Student analysis lab for a news website	Teaching them how to analyze a news website	2	
Theory tests	A theoretical lecture presented on PowerPoint	Second semester exam	Exam preparation	2	

## 22. Course evaluation

The grade out of 100 is distributed according to the tasks assigned to the student, such as

daily preparation, daily exams, and oral exams.

Monthly editorial, and reporting documents...etc.

Evaluation is done in several ways

-<sup>١</sup> Discussion by asking a question regarding the topic of the lecture.

-<sup>٢</sup> Theory tests: Daily exams.

Daily assignments

-<sup>٤</sup> Applied projects.

-<sup>٥</sup> Participation.

-<sup>٦</sup> Observing student behavior

-<sup>٧</sup> A written exam at the end of each semester.

### 23. Learning and teaching resources

.<sup>١</sup> Al-Shafi'i Omar Hassanein: Electronic Journalism : Concept, Characteristics, and Implications, 2011

.<sup>٢</sup> Mahmoud Alam El-Din: Information and Communication Technology and the Future of the Press Industry.

.<sup>٣</sup> Abbas Mustafa Sadiq :Concepts, Methods and Applications, (M.S(

.<sup>٤</sup> Suleiman Saleh: The Communication Revolution and Media Freedom

.<sup>٥</sup> Makki Meeting: Internet Journalism in Light of the Social Responsibility of the Media, Sharjah "Proceedings of the Internet Journalism in the Arab World Conference" Reality and Challenges "

. ٢٠٠٦

.<sup>٦</sup> Abbas Naji Hassan: The Electronic Journalist, 2012.

Required textbooks (methodology, if applicable)

## Course Description Form

1. Course Name:	
Media language	
2. Course Code:	
3. Semester / Year:	
annual	
4. Description Preparation Date:	
٢٠٢٥/١٠/١	
5. Available Attendance Forms:	
My weekly attendance	
6. Number of Credit Hours (Total) / Number of Units (Total)	
٦.	
7. Course administrator's name (mention all, if more than one name)	
Name: Email: Dr.Suhail Saleh Eisa – ma.suhail@t ..... u.edu.iq .....	
8. Course Objectives	
<p><b>Course Objectives</b> This course aims to give the student a complete idea about the media language subject and that the primary goal of this course is for the student to learn about the concept of media language and the extent of the language's connection to the media subject and its main and effective role in creating and delivering the media material to the recipient.</p>	<ul style="list-style-type: none"> <li>•</li> <li>•A- Cognitive objectives               <ul style="list-style-type: none"> <li>A1- The student should know the extent to which the language is related to the media material.</li> <li>A2- That the student knows all the possibilities of language and rhetorical methods that strengthen and enrich his media material.</li> </ul> </li> </ul>

	<p>A3- The student should learn correct writing methods and avoid spelling and expression errors while writing his media material.</p> <p>A4- The student should recognize the role of language in convincing recipients of his media material and the extent of its significant impact on the conviction or rejection of the idea he wants to market or the news he wants to deliver.</p> <p>-B1 - The student discusses with the professor the linguistic issues related to the media and learns more about them.</p> <p>B2 - The student practices the correct pronunciation and correct writing of the words and terms that appear in the lecture.</p> <p>B3 - Pushing the student towards critical and analytical thinking.</p> <p>B4- Urging the student to write reports and research in the field of this course.</p>
--	---

**9. Teaching and Learning Strategies**

<p><b>Strategy</b></p> <p>Theoretical strategies:</p> <p>1. Giving lectures</p>	<p>Practical strategies:</p> <p>1- Encouraging students to speak among themselves in a proper language and motivating them by awarding a grade for the practical activity.</p> <p>2- Conducting debates between students using eloquent language and the ideal literary and media style to encourage them to practice and learn.</p>
---	--

<p>(explanation and clarification).</p> <p>2. Discussions within the lecture.</p> <p>3. Urging students to use the library as a learning method.</p>	<p>3- Reading Quranic verses, poetic poems, and eloquent literary texts to accustom them to pronunciation and speaking correctly.</p>
--	---

**10. Course Structure**

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2		One	<b>Two hours my theory</b>	The concept of media language
2	2		two	<b>Two hours my theory</b>	The role of media language in preparing reports and news

## Course description: Communication Theories

Course Name:					
Digital Media					
Course Code: A20					
Semester/Year: 2025/2026					
Annual					
Date of Preparation of this Description					
September 1, 2025					
Available Attendance Formats:					
In-Person					
Total Credit Hours/Units: 60					
45					
Course Coordinator's Name (If more than one, please specify):					
Dr. Mustafa Qais Zanboor					
Assistant Lecturer: Mohanad Thaeer Dhamin <a href="mailto:mustafa.zanboor122@moheer.gov.iq">mustafa.zanboor122@moheer.gov.iq</a>					
Course Objectives					
The objectives of the Digital Media course, in brief, are:					
1. To understand the concept of digital media and its evolution.					
2. To understand online media tools and technologies.					
3. To develop skills in producing and publishing digital content.					
4. To understand the impact of social media on society.					
5. To learn the principles of responsible and ethical engagement with digital media.					
6. To develop the ability to analyze digital media messages.					
Teaching and Learning Strategies					
1. Assigning students worksheets, reports, and advance preparation for the upcoming lecture to ensure their participation and academic interaction with class activities.					
2. Preparing some lectures that require specific focus using PowerPoint and presenting them to students using a data projector, along with accompanying images, data, and illustrative materials related to the subject matter.					
Course Structure					
Assessment Method	Learning Method	Unit or Topic Name	Required Learning Outcomes	Hours	Week

Exam + Discussion	Explanation and examples	• Traditional and Digital Media	Defining the concept of digital media.	۲	1
Exam + Discussion	Explanation and examples	• Characteristics of Digital Media	Explaining the characteristics of digital media.	۲	2
Exam + Discussion	Explanation and examples	• Social Media Platforms	Distinguishing between traditional and digital media.	۲	3

### Course evaluation

--

### Learning and teaching resources

The prescribed textbook.	• E-learning platforms.
• Specialized academic references in digital media.	• Online educational videos.
• Academic articles and journals	• PowerPoint presentations.
• Educational websites	• Social media platforms for educational purposes.

## Course Description Form - Communication theories

1. Course Name:					
Communication theories					
2. Course Code:					
c t 20					
3. Semester / Year:					
Annual					
4. Description Preparation Date:					
1/9/2025					
5. Available Attendance Forms:					
6. Number of Credit Hours (Total) / Number of Units (Total):					
60					
7. Course administrator's name (mention all, if more than one name)					
Name: dr. yousif hassan mahmood ; Lecturer. Tasneem khalaf Muhammed <a href="mailto:dryosifhassan@tu.edu.iq">dryosifhassan@tu.edu.iq</a> <a href="mailto:tasnim.kh.moh@tu.edu.iq">tasnim.kh.moh@tu.edu.iq</a>					
8. Course Objectives					
Introducing students to scientific visions about the effects of the media on the public, the factors influencing the communicator, as well as the details of communication theories that address the issue of how, why, and when influences occur in the communication process.					
9. Teaching and Learning Strategies					
1. Assigning the student to prepare worksheets, reports, and advance preparation for the upcoming lecture in order to ensure his participation and scientific interaction with the class contributions. 2. Preparing some lectures that require a specific focus on the (Power Point) file, presenting them to the students in the (Data Show) manner, and attaching them to pictures, data, and illustrative pens related to the scientific subject.					
10. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Know the insights of the communicator	Media Gatekeeper Theory (Introduction)	Explanation and examples	Exam + discussion
2	2	Knowing the factors of media message production	Factors affecting the gatekeeper	Explanation and examples	Exam + discussion
3	2	Know the impact of technology on the message	Electronic gatekeeper	Explanation and examples	Exam + discussion

4	2	Know the power of media influence	Unified Effects Theory	Explanation and examples	Exam + discussion
5	2	Know the role of communication in conveying the message	The transmission of information takes place in two stages	Explanation and examples	Exam + discussion
6	2	Knowing the impact of desires on choosing the message	Selective influence theories	Explanation and examples	Exam + discussion
7	2	Knowing the impact of psychological factors on choice	Selectivity and individual differences	Explanation and examples	Exam + discussion
8	2		Monthly exam		
9	2	Knowing the causes of exposure to media	Uses and gratifications theory	Explanation and examples	Exam + discussion
10	2	Knowing the effect of motives on selection	Motives for exposure to media	Explanation and examples	Exam + discussion
11	2	Know the role of media theories	The importance of selective influence theories	Explanation and examples	Exam + discussion
12	2	Knowing the extent of the media's power	Powerful of influence theories	Explanation and examples	Exam + discussion
13	2	Knowing the role of media in development	The theory of traversing traditional society	Explanation and examples	Exam + discussion
14	2	Knowing the effect of role-playing on influence	Empathy theories	Explanation and examples	Exam + discussion
15	2		Monthly exam		
16	2	Knowing the strength and weakness of the media	Moderating influence theories	Explanation and examples	Exam + discussion
17	2	Knowing the impact of the media on the recipient's agenda	Agenda setting theory	Explanation and examples	Exam + discussion
18	2	Knowing the impact of factors on the recipient's agenda	Factors affecting of Agenda setting	Explanation and examples	Exam + discussion
19	2	Knowing the role of the media in shaping the image	Cultivation theory	Explanation and examples	Exam + discussion
20	2	Find out new trends of influence	New terminology in Cultivation	Explanation and examples	Exam + discussion
21	2	Knowing how and when we depend on the media	dependency of media theory	Explanation and examples	Exam + discussion
22	2	Knowing the types of effects resulting from the media	Effects of media dependency	Explanation and examples	Exam + discussion

23	2		Monthly exam		
24	2	Knowing how to construct meaning for a message	Media framing theory	Explanation and examples	Exam + discussion
25	2	Knowing the role of the media in spreading violence	Theories of violence in the media	Explanation and examples	Exam + discussion
26	2	Knowing the role of the media in reducing violence	Purification theory	Explanation and examples	Exam + discussion
27	2	Knowing the role of the media in stimulating violence	Arousal theory	Explanation and examples	Exam + discussion
28	2	Knowing the role of the media in promoting violence	Reinforcement theory	Explanation and examples	Exam + discussion
29	2	Knowing the role of the media in teaching violence	Model theory	Explanation and examples	Exam + discussion
30	2		Monthly exam

## Course Description Form

<b>1. Course Name:</b>					
Research Methods and Statistical Applications					
<b>2. Course Code:</b>					
<b>3. Semester / Year:</b>					
2025-2026					
<b>4. Description Preparation Date:</b>					
<b>5. Available Attendance Forms:</b>					
In-class lectures					
<b>6. Number of Credit Hours (Total) / Number of Units (Total)</b>					
60 Hours					
<b>7. Course administrator's name (mention all, if more than one name)</b>					
Reem adil & Badee Jassim					
<b>8. Course Objectives</b>					
<b>Course Objectives</b>		Introducing students to the basic steps of writing scientific research in the media field.			
<b>9. Teaching and Learning Strategies</b>					
<b>Strategy</b>		<p>1. Assigning students working papers, reports, and pre-preparation for lectures to ensure active participation.</p> <p>2. Preparing specific lectures using PowerPoint, presented via Data Show, including images, data, and explanatory clips.</p>			
<b>Learning and teaching methods</b>		<ul style="list-style-type: none"> <li>- Theoretical lectures</li> <li>- Using electronic presentations, shared experiments, and videos</li> <li>- University library visits</li> </ul>			
<b>Course Structure</b>					
<b>Week</b>	<b>Hours</b>	<b>Required Learning Outcomes</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>

1.	2	Understand scientific concepts	Basic concepts (scientific knowledge, scientific research, research methodology)	Theory + Practical	Exam & Discussion
2.	2	Understanding concept of scientific thinking and its methodology	The concept of thinking and its types	Theory + Practical	Exam & Discussion
3.	2	Understanding conditions followed scientific thinking	Conditions for scientific thinking	Theory + Practical	Exam & Discussion
4.	2	Understanding most important methods used acquiring scientific knowledge	Understanding the most important methods used acquiring scientific knowledge	Theory + Practical	Exam & Discussion
5.	2	Understanding Types of Research	Types of Scientific Research	Theory + Practical	Exam & Discussion
6.	2	Understanding Scientific Research Methods	Types of Scientific Research Methods: Historical, Experimental, Comparative, Statistical, Survey	Theory + Practical	Exam & Discussion
7.	2	Understanding criteria for selecting the appropriate curriculum	Criteria for verifying selection of the curriculum	Theory + Practical	Exam & Discussion
8.	2	How to choose research topic	Choosing a research topic	Theory + Practical	Exam & Discussion
9.	2	How to determine title and its requirements	Determining the title and its requirements (variable formulation stage)	Theory + Practical	Exam & Discussion
10.	2	Knowing how to define a research problem. Defining the research problem.	the research problem (its sources, conditions, and intellectual heritage).	Theory + Practical	Exam & Discussion
11.	2	Understanding importance of research	The importance of research and defining research objectives (defining the importance of research - writing importance statement)	Theory + Practical	Exam & Discussion
12.	2	How to verify validity of research objectives	Developing the research plan (1) Guidelines verifying the validity of research objectives	Theory + Practical	Exam & Discussion

13.	2	How to develop a suitable research plan	Developing the research plan (2)	Theory + Practical	Exam & Discussion
14.	2	Understanding review of previous studies	Reviewing previous studies	Theory + Practical	Exam & Discussion
15.	exam				
16.	2	Understanding of collection methods of all types	How to collect data (theoretical, field-based)	Theory + Practical	Exam & Discussion
17.	2	Understanding how to write a research theoretical framework	How to write a theoretical framework	Theory + Practical	Exam & Discussion
18.	2	Understanding the practical application of research writing	Practical applications in writing theoretical information	Theory + Practical	Exam & Discussion
19.	2	Understanding how to write the theoretical framework	How to write the field framework	Theory + Practical	Exam & Discussion
20.	2	Understanding the practical application of the theoretical framework	Practical applications in writing the field framework	Theory + Practical	Exam & Discussion
21.	2	Understanding how to design approved procedures for collecting field data	Designing approved procedures for collecting field data	Theory + Practical	Exam & Discussion
22.	2	Understanding the research population and research population types (definition of the and the criteria for good research.	research population types (definition of the research population, criteria for a good research population).	Theory + Practical	Exam & Discussion
23.	2	Understanding the types of probability samples.	Samples and their types (probability samples).	Theory + Practical	Exam & Discussion
24.	2	Understanding the types of non-probability	samples. Non-probability samples.	Theory + Practical	Exam & Discussion
25.	2	Teaching students practical application of sample selection	Practical application (verification criteria of sample selection)	Theory + Practical	Exam & Discussion
26.	2	Teaching students how to write research sources	Scientific citation (cases of writing sources and references) (using research sources)	Theory + Practical	Exam & Discussion

27.	2	Their definition of how to cite scientific sources	Types of citation (quotation, reference to idea, bibliography)	Theory + Pract	Exam & Discuss
28.	2	Understanding the steps for writing a reference document	Steps for writing a reference document	Theory + Pract	Exam & Discuss
29.	2	Teaching them practical applications in this area.	Practical applications	Theory + Pract	Exam & Discuss
30.	Final Examination				

## 10. Course Evaluation

### Assessment Methods

- First Exam (10)
- Practical and Daily Assignments (10)
- Second Exam (10)
- Practical and Daily Assignments (10)
- Final Semester Exam (60)

## 11. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Saad Salman Al-Mashhadani: <i>Scientific Research Methodology</i> , Amman, Dar Osama for Publishing and Distribution, 2019
Main references (sources)	Abdul Khaliq Muhammad Ali: <i>Steps Towards Media Research</i> , Beirut, Dar Al-Mahaja Al-Bayda, 2000 Mahmoud Hassan Ismail: <i>Research Methods in Communication Media</i> , Cairo, University Publishing House, 1996
Recommended books and references (scientific journals, reports...)	Media Research Journals
Electronic References, Websites	A group of electronic websites

## Course Description Form

1. Course Name:	
Public opinion	
2. Course Code:	
S A D 38	
3. Semester / Year:	
Annual	
4. Description Preparation Date:	
٢٠٢٥– ٢٠٢٦	
5. Available Attendance Forms:	
Weekly – in person	
6. Number of Credit Hours (Total) / Number of Units (Total)	
30 hour	
7. Course administrator's name (mention all, if more than one name)	
.Dr. Sohaib Mahdi Salih AL tahseen abd almageed yahya <a href="mailto:tahseen.abd20@tu.edu.iq">tahseen.abd20@tu.edu.iq</a>	
8. Course Objectives	
1- definitions of public opinion concepts	3- ..... .....
2- statement of the most important function of public opinion	.....
9. Teaching and Learning Strategies	
1- method of giving lectures 2- social discussions 3- brainstorming method 4- scientific discussion dialogue and use of technologies 5- developing the creative side of students and urging them to keep up with it	

10. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Public opinion	The concept and origin of public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
2	2	Public opinion	Pillars of public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
3	2	Public opinion	Public opinion in ancient societies	Theoretical lecture using data show presentation, participation and reporting	Theory tests
4	2	Public opinion	Public opinion in modern societies	Theoretical lecture using data show presentation, participation and reporting	Theory tests
5	2	Public opinion	Characteristics of public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
6	2	Public opinion	Public opinion outlets	Theoretical lecture using data show presentation, participation and reporting	Theory tests
7	2	Public opinion	Types of public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
8	1	Public opinion	First exam	Theoretical lecture using data show presentation, participation and reporting	Theory tests
9	2	Public opinion	The most important	Theoretical lecture using	Theory tests

			functions of public opinion	data show presentation, participation and reporting	
10	2	Public opinion	Public opinion laws	Theoretical lecture using data show presentation, participation and reporting	Theory tests
11	2	Public opinion	The impact of the political-social environment on measuring public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
12	2	Public opinion	Obstacles facing public opinion apparatuses in developing countries	Theoretical lecture using data show presentation, participation and reporting	Theory tests
13	2	Public opinion	Methods of measuring public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
14	2	Public opinion	factors shaping public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
15	1	Public opinion	Second exam	Theoretical lecture using data show presentation, participation and reporting	Theory tests
16	2	Public opinion	Customs and traditions in shaping public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
17	2	Public opinion	The role of religion in shaping public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
18	2	Public opinion	The impact of	Theoretical lecture using	Theory tests

			economic and political conditions on the formation of public opinion	data show presentation, participation and reporting	
19	2	Public opinion	The impact of wars and revolutions on public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
20	2	Public opinion	The role of leaders and leaders in shaping public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
21	2	Public opinion	Media and its impact on the formation of public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
22	2	Public opinion	Public opinion and the communication process	Theoretical lecture using data show presentation, participation and reporting	Theory tests
23	1	Public opinion	First exam	Theoretical lecture using data show presentation, participation and reporting	Theory tests
24	2	Public opinion	Public opinion determines the form of the media message	Theoretical lecture using data show presentation, participation and reporting	Theory tests
25	2	Public opinion	Press and public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
26	2	Public opinion	The role of radio in shaping public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
27	2	Public opinion	The role of	Theoretical lecture using	Theory tests

			television media and its impact on shaping public opinion	data show presentation, participation and reporting	
28	2	Public opinion	The influence of (cinema - theater - books - and printed media) on public opinion	Theoretical lecture using data show presentation, participation and reporting	Theory tests
29	2	Public opinion	Public opinion manifestations (revolutions - social debates - demonstrations)	Theoretical lecture using data show presentation, participation and reporting	Theory tests
30	1	Public opinion	Second exam	Theoretical lecture using data show presentation, participation and reporting	Theory tests

## Course Evaluation .١

The grade is distributed out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly and written exams, reports, etc.

- A written semester exam of 20 marks.
- Student attendance and participation in class, oral exams, quick exams and submission of worksheets.10 marks

And research of 10 marks

- Final exam of 60 marks

Total 100 points

## Course Description: Media Laws and Ethics

<b>Course Description:</b>	
Media Laws and Ethics	
<b>Course Code:</b>	
<b>Academic Year / Semester:</b>	
٢٠٢٦ - ٢٠٢٥	
<b>Date of Preparation of this Description:</b>	
2025- 2026	
<b>Mode of Attendance:</b>	
In-person	
<b>Total Study Hours / Total Units:</b>	
٦.	
<b>Course Coordinator(s):</b>	
Prof. Dr. Jamo Mohammed Abdullah <a href="mailto:g.ankido@tu.edu.iq">g.ankido@tu.edu.iq</a>  Assist. Lecturer Tasnim Khalaf Mohammed <a href="mailto:Tasnim.kh.moh@tu.edu.iq">Tasnim.kh.moh@tu.edu.iq</a>	
<b>Course Objectives</b>	
To introduce students to the laws and regulations governing media work locally and internationally, and to familiarize them with the rights and duties of media professionals. The course also aims to strengthen commitment to ethical values in media practices such as honesty, integrity, accuracy, and respect for privacy, as well as to develop a sense of social responsibility.	
<b>Teaching and Learning Strategies</b>	
1. Assigning students papers, reports, and pre-lecture preparation to ensure participation and active engagement in class discussions. 2. Encouraging students to listen to each other's contributions and participate in discussions on lecture topics.	
<b>Course Structure</b>	

Week	Hours	Learning Outcomes	Topic	Teaching Method	Assessment Method

<b>Week</b>	<b>Hours</b>	<b>Learning Outcomes</b>	<b>Topic</b>	<b>Teaching Method</b>	<b>Assessment Method</b>
1	2	General overview	Introduction and general principles	Explanation & examples	Questions & discussion
2	2	Understanding law and its importance	Definition of law	Explanation & examples	Questions & discussion
3	2	Know the of legal laws	Legislation	Explanation & examples	Questions & discussion
4	2	Understanding crime in Iraqi law	Crime in Iraqi legislation	Explanation & examples	Questions & discussion
5	2	Know the types of crimes and their punishments	Types of crimes	Explanation & examples	Questions & discussion
6	—	—	Monthly Exam	—	—

# Course Description Form Investigative Journalism

1. Course Name:

Investigative Journalism

2. Course Code:

MA15

3. Semester / Year:

annual

4. Description Preparation Date:

1/9/2025

5. Available Attendance Forms:

In person

6. Number of Credit Hours (Total) / Number of Units (Total)

Credit Hours: 3 (60 hours)

7. Course administrator's name (mention all, if more than one name)

Haneen Saad Salman [hanin.saad@tu.edu.iq](mailto:hanin.saad@tu.edu.iq)

Alaa Hazem Hassan

8. Course Objectives

**Cognitive Objectives:**

By the end of the course, the student is expected to be able to:

1. Define investigative journalism and explain its origins and development.
2. Distinguish between conventional journalistic reports and investigative reporting.
3. Recognize the importance of investigative journalism in promoting democracy.
4. Identify the fields and functions of investigative journalism.
5. Understand the relationship between investigative journalism and scientific research methods.

**Skill-Based Objectives:**

By the end of the course, the student is expected to be able to:

1. Select appropriate ideas for investigative reports.
2. Formulate clear and testable hypotheses.
3. Develop a comprehensive plan for an investigative project.
4. Effectively use primary and secondary sources.
5. Conduct in-depth interviews that go beyond conventional questioning.
6. Produce a professional investigative report (print or broadcast).
7. Utilize the internet and technology in research and investigation.

9. Teaching and Learning Strategies

**Teaching Strategies:**

1. **Interactive Lecture:** Includes presenting core concepts (such as the concept of investigative journalism, its origins, and ethics), as well as engaging students through questions and discussion during the lecture.
2. **Case Study:** Involves analyzing Iraqi, Arab, and international investigative reports, along with discussing working methods, sources of information, and outcomes.
3. **Collaborative Learning:** Involves dividing students into groups to produce joint investigative projects.
4. **Brainstorming:** Includes generating ideas for investigative stories and training students in critical and creative thinking.

**Learning Strategies:**

1. **Self-Directed Learning:** Involves searching for information from various sources and reviewing and analyzing published investigations.
2. **Inquiry-Based Learning:** Includes collecting data from primary and secondary sources, as well as using research tools (the internet, documents, and interviews).
3. **Learning by Practice:** Involves conducting real interviews and writing investigative reports through practical application.
4. **Critical Thinking:** Includes evaluating information and sources, as well as verifying the accuracy of data.
5. **Technology-Based Learning:** Such as employing multimedia tools in investigative reporting.

## 10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
	3	The student becomes familiar with the meaning of investigative journalism.	Investigative Journalism – Definition	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student learns the concept of investigative journalism, its early beginnings, and how it has evolved.	Concept of Investigative Journalism: Origins and Development	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student understands the importance of investigative journalism.	Importance of Investigative Journalism	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to identify the functions of investigative journalism.	Functions of Investigative Reporting	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student becomes aware	Skills of an Investigative	Theoretical (using	<b>Student</b>

		of the skills required of an investigative journalist.	Journalist	PowerPoint to support the lecture with images and videos)	<b>Engagement During the Lecture</b>
	3	The student learns about the sources of ideas for investigative reports.	How to Generate Ideas for Investigative Stories	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to formulate a hypothesis for an investigative report.	Formulating a Hypothesis and How to Develop It	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to plan the stages of conducting an investigative report.	Planning an Investigative Report	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to identify topics suitable for investigative reporting.	Comparison of Topics Suitable for Investigative Reporting	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student learns about the types of evidence used in investigative reporting centers.	Types of Evidence Used in Investigative Reporting Centers	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to distinguish between reliable sources of information.	Primary and Secondary Sources; Collecting Physical, Documentary, and Human Evidence	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student understands the role of interviews as a key tool for gathering information in investigative reporting.	The Art of Interviewing in Investigative Reporting	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student learns how to write an investigative report and understands the differences between investigative and conventional reporting.	Methods of Writing Investigative Reports and the Difference from Conventional Reporting	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student becomes familiar with the differences between written investigative reports.	Selected Examples of Published Investigative Reports	Practical	<b>Student Engagement During the Lecture</b>
	3		Midterm Exam	-	
	3	The student becomes familiar with the legal and ethical aspects of investigative reporting.		Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student learns methods for tracing public funds in investigative reporting.	Legal and Ethical Aspects of Investigative Reporting	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>

	3	The student becomes familiar with approaches to uncovering corruption and negligence in investigative journalism.	Methods of Tracing Public Funds	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student learns how to utilize the internet in investigative journalism.	Approaches to Uncovering Corruption and Negligence	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to analyze and compare investigative reports.	Using the Internet in Investigative Journalism	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student is able to analyze and compare investigative reports.	Examples of Published Iraqi Investigative Reports	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student becomes familiar with the stages and steps of preparing investigative reports.	Examples of Published Arab Investigative Reports	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student learns the features and characteristics of journalistic investigations.	Stages and Steps of Preparing Investigative Reports	Theoretical + Practical	<b>Student Engagement During the Lecture</b>
	3	The student is able to analyze and compare investigative reports.	Features and Characteristics of Journalistic Investigations	Theoretical + Practical	<b>Student Engagement During the Lecture</b>
	3	The student learns how to employ images and their uses in investigative reporting.	Examples of Foreign Investigative Journalism Reports	Theoretical + Practical	<b>Student Engagement During the Lecture</b>
	3	The student becomes familiar with the art of writing investigative reports in print journalism.	Images and Their Uses in Investigative Reporting	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student understands the impact of investigative reporting in exposing corruption and promoting the democratic process.	The Art of Writing Investigative Reports in Print Journalism	Theoretical (using PowerPoint to support the lecture with images and videos)	<b>Student Engagement During the Lecture</b>
	3	The student becomes familiar with the professional and ethical standards of investigative journalists.	The Impact of Investigative Reporting in Exposing Corruption and Promoting Democracy	Theoretical + Practical	<b>Student Engagement During the Lecture</b>
	3	The student understands the relationship between investigative reporting and the scientific method.	Professional and Ethical Standards of Investigative Journalists	Theoretical + Practical	<b>Student Engagement During the Lecture</b>
	3	-	The Relationship Between Investigative Reporting and the Scientific Method	-	-

Language of media discourse					
<b>2. Course Code:</b>					
<b>3. Semester / Year:</b>					
<b>4. Description Preparation Date:</b>					
<b>5. Available Attendance Forms:</b>					
In personal					
<b>6. Number of Credit Hours (Total) / Number of Units (Total)</b>					
2 hours per week and 4 units					
<b>7. Course administrator's name (mention all, if more than one name)</b>					
Name: Email:					
Asst. Prof. Dr. Adnan Khaled Fadl					
<b>8. Course Objectives</b>					
Teaching students the basics of the Arabic language and the language of media discourse.		•	••••		
And forming a solid linguistic ability through which students can benefit from the language.		•	••••		
To become familiar with the objectives of the prescribed subject in all its aspects.		•	••••		
<b>9. Teaching and Learning Strategies</b>					
<b>Strategy</b>					
<b>10. Course Structure</b>					
<b>Week</b>	<b>Hours</b>	<b>Required Learning Outcomes</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>

1.	2 hours theory	Learn the concept and types of discourse	The concept of media discourse language	Theoretical	Preparation Discussion
2.		Knowing what are dependents	Linguistic dependencies		
3.		Types of conjunctions and their tools	Conjunction and its tools		
4.		Methods and tools of emphasis	Emphasis and its types		
5.		Types of substitute and their uses	Badal		
6.		Adjectives in the singular and adjectives in the sentence	Adjective		
7.		Writing the hamza at the beginning of the word	First Hamza		

8.		Writing the hamza in the middle of the word	Middle Hamza		
9.		Writing the hamza at the end of the word	Extreme Hamza		
10.		Grammar rules	Grammatical Applications		
11.		Drawing the letter alif in words	Spelling and Drawing Letters		
12.		Editorial evaluation	First month exam		
13.		The call and its types	The call		
14.		Drawing the middle hamza	Drawing the middle hamza		

15.		Evaluation	Second month exam		
16.		Definition of number and its types	Number		
17.		Knowing the cases of masculine and feminine number	Masculine and feminine number		
18.		The counted and its types	Distinguishing number		
19.		Cases of declension of number	Parsing number		
20.		Knowing the definition of number and its indefiniteness	Definition and indefiniteness of number		
21.		Correct reading of the number	Reading and writing numbers		

22.		Number writing skills	Applications		
23.		The thousand and its writing	Soft Alif		
24.		The thousand in the middle of the word	Soft Alif in the middle of the word		
25.		Details in the letters	Soft Alif at the end of letters		
26.		Knowing the Alif at the end of the noun	Alif at the end of names		
27.		Written evaluation	First month exam - second semester		
28.		Alif in verbs and writing it correctly	The soft alif at the end of verbs		

29.		Review of the previous	Review		
30.		Evaluation	Exam		

36. Course Evaluation	
.(Written exam (mid-first semester. .(Written exam (end of first semester .٢ .(Written exam (mid-second semester .٣ .(Written exam (end of second semester .٤ 5. Conducting an oral exam in each semester

<b>Week</b>	<b>Hours</b>	<b>Required Learning</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>

		<b>Outcomes</b>			
31.	2	Knowledge of research title criteria	(Title + Quranic Verse)	Theory + Practical	Exam & Discussion
32.	2	Knowledge of Dedication + Acknowledgements criteria	Dedication + Acknowledgements	Theory + Practical	Exam & Discussion
33.	2	Knowledge of Abstract + Introduction writing basics	(Abstract + Introduction)	Theory + Practical	Exam & Discussion
34.	2	Knowledge of identifying research problem	Perceiving the research problem	Theory + Practical	Exam & Discussion
35.	2	Knowledge of formulating research problem	Research problem and its questions	Theory + Practical	Exam & Discussion
36.	2	Knowledge of formulating scientific importance	Research Importance	Theory + Practical	Exam & Discussion
37.	2	Exam			
38.	2	Knowledge of formulating research objectives	Research Objectives	Theory + Practical	Exam & Discussion
39.	2	Knowledge of space and temporal boundaries	Research Field	Theory + Practical	Exam & Discussion
40.	2	Knowledge of identifying research population	Research Population	Theory + Practical	Exam & Discussion
41.	2	Knowledge of selecting the research sample	Simple Random Sampling	Theory + Practical	Exam & Discussion
42.	2	Knowledge of selecting the research sample	Systematic Random Sampling	Theory + Practical	Exam & Discussion
43.	2	Knowledge of selecting the research sample	Stratified Random Sample	Theory + Practical	Exam & Discussion
44.	2	Knowledge of selecting the research sample	Purposive Sampling	Theory + Practical	Exam & Discussion
45.	<b>The end of the 1<sup>st</sup> Semester</b>				

46.	2	Knowledge selecting the research sample	Quota Sampling	Theory + Practical	Exam & Discussion
47.	2	Knowledge selecting the research sample	Convenience Sampling	Theory + Practical	Exam & Discussion
48.	2	Knowledge selecting the research sample	Snowball Sample	Theory + Practical	Exam & Discussion
49.	2	Knowledge verifying research tool validity	Validity	Theory + Practical	Exam & Discussion
50.	2	Knowledge achieving research tool reliability	Reliability	Theory + Practical	Exam & Discussion
51.	2	Knowledge of documenting source information	Information Documentation	Theory + Practical	Exam & Discussion
52.	2	Exam			
53.	2	Knowledge documenting scientific sources	Source Documentation	Theory + Practical	Exam & Discussion
54.	2	Knowledge of elements of scientific documentation	Elements of Documentation	Theory + Practical	Exam & Discussion
55.	2	Knowledge of methods content analysis	Content Analysis	Theory + Practical	Exam & Discussion
56.	2	Knowledge analysis steps	Content Analysis Steps	Theory + Practical	Exam & Discussion
57.	2	Knowledge collecting information from the audience	Audience Studies	Theory + Practical	Exam & Discussion
58.	2	Knowledge formulating questionnaire	Questionnaire Design	Theory + Practical	Exam & Discussion
59.	2	Knowledge calculating percentages & writing conclusions	Statistical Operations, Results, and Conclusions	Theory + Practical	Exam & Discussion
60.	Final Examination				
21. Course Evaluation					
Assessment Methods					
- First Exam (10)

## Course Description Form

1. Course Name:					
Networks					
2. Course Code:					
Dh A 401					
3. Semester / Year:					
Third Stage – Academic Year 2025–2026					
4. Date of Preparing this Description:					
10/11/2024 – 1/3/2026					
5. Available Attendance Forms:					
In-person (Face-to-face)					
6. Number of Study Hours (Total) / Units (Total):					
Two hours per week					
7. Name of Course Coordinator / Instructor(s):					
Lecturer Huda Khalid Khudair Abbas - Assistant Lecturer Mustafa Mohammed Suhail					
8. Course Objectives					
<p>This course aims to provide a brief overview of the most important characteristics of the course and the expected learning outcomes that students should achieve, demonstrating whether they have gained the maximum benefit from the available learning opportunities. These outcomes must also be linked to the program description.</p>					
<hr style="width: 50%; margin: auto;"/>					
<p>Enabling students to acquire knowledge related to radio and television</p> <p style="text-align: right;">9. Teaching and Learning Strategies</p> <p style="text-align: right;">1. networks</p> <p style="text-align: right;">.Preparing students cognitively, professionally, and educationally to deal with radio and television content</p> <p style="text-align: right;">Enriching students' knowledge and preparing them academically to face the implicit messages presented by radio and television networks</p> <p style="text-align: right;">Providing guidance on dealing with specialized social groups in the field of directed media, radio and television networks, and social media networks</p>

## Course Description Form

<b>23. Course Name:</b>	
Radio Advertising	
<b>24. Course Code:</b>	
JS 41	
<b>25. Semester / Year:</b>	
Annual Third Stage – Journalism – Academic Year 2025–2026	
<b>26. Description Preparation Date:</b>	
2025–2026	
<b>27. Available Attendance Forms:</b>	
Daily attendance	
<b>28. Number of Credit Hours (Total) / Number of Units (Total)</b>	
96 hours	
<b>29. Course administrator's name (mention all, if more than one name)</b>	
<ul style="list-style-type: none"><li>• Dr. Mustafa Qais Zanbour (Lecturer)</li><li>• Abdullah Maiyoof Mahmoud (Assistant Lecturer)</li></ul>	
<b>30. Course Objectives</b>	
Course Objectives	This course aims to introduce students to the concept of radio advertising and its importance in mass media. It also aims to develop students' skills in writing, preparing, and producing radio advertising messages. In addition, the course trains students to effectively use voice, sound effects, and music in producing radio advertisements that achieve communication objectives and influence the target audience.
<b>31. Teaching and Learning Strategies</b>	

<b>Strategy</b>	<ul style="list-style-type: none"> <li>• Delivering lectures (explanation and clarification).</li> <li>• Using technological teaching aids and multimedia presentations.</li> <li>• Listening to and analyzing examples of radio advertisements.</li> <li>• Practical training in writing and producing radio advertising messages.</li> <li>• Encouraging students to produce their own radio advertising models.</li> </ul>
<b>Learning and teaching methods</b>	

**Course Structure**

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
61.	3	Understanding concept of advertising	Introduction to Radio Advertising	Lecture & explanation	Discussion & questions
62.	3	Learning about origin of radio advertising	History of Radio Advertising	Lecture	Discussion
63.	3	Identifying the characteristics of radio advertising	Characteristics of Radio Advertising	Lecture	Discussion
64.	3	Understanding the functions of advertising	Functions of Radio Advertising	Lecture	Discussion

65.	3	Learning the components of advertising message	Elements of Radio Advertising	Lecture	Discussion
66.	3	Understanding audience targeting	Target Audience in Advertising	Lecture	Discussion
67.	3	Identifying types of advertisements	Types of Radio Advertising	Lecture	Discussion
68.	3	Understanding structure of advertising message	Structure of Radio Advertising Script	Lecture	Discussion
69.	3	Writing simple advertising script	Practical Writing Training	Practical training	Evaluation of writing
70.	3	Learning advertising language	Language of Radio Advertising	Lecture	Discussion
71.	3	Measuring student knowledge	Monthly Exam	Written test	Evaluation
72.	3	Understanding the role of voice	Voice in Radio Advertising	Lecture	Discussion
73.	3	Learning about sound effects	Sound Effects in Advertising	Lecture	Discussion
74.	3	Understanding music in advertising	Music in Radio Advertising	Lecture	Discussion
75.	<b>The end of the 1<sup>st</sup> Semester</b>				
76.	3	Producing a radio advertisement	Practical Production	Practical training	Evaluation
77.	3	Assessing student performance	Monthly Exam	Written test	Evaluation
78.	3	Learning advertising strategies	Radio Advertising Strategies	Lecture	Discussion
79.	3	Understanding campaign planning	Advertising Campaign Planning	Lecture	Discussion

80.	3	Advanced advertising writing	Advanced Script Writing	Practical training	Evaluation
81.	3	Learning about commercial advertising	Commercial Radio Advertising	Lecture	Discussion
82.	3	Understanding public service advertising	Public Service Advertising	Lecture	Discussion
83.	3	Evaluating student understanding	Monthly Exam	Written test	Evaluation
84.	3	Analyzing advertising models known	Analysis of Radio Advertisements	Lecture	
85.	3	Understanding production stages	Radio Advertising Production Process	Lecture	Discussion
86.	3	Learning radio directing	Directing Radio Advertisements	Lecture	Discussion
87.	3	Learning script writing	Radio Advertising Scripting	Lecture	Discussion
88.	3	Writing advertising scripts	Script Writing Practice	Practical training	Evaluation
89.	3	Assessing learning	Monthly Exam	Written test	Evaluation
90.	3	Reviewing Arab radio advertisements	Examples of Arab Radio Advertisements	Lecture	Discussion
91.	3	Student advertising project	Practical Project	Practical training	Evaluation
92.	3	Comprehensive review	Course Review	Lecture	Practical evaluation

### 32. Course Evaluation

- Written examinations to assess students' understanding of theoretical concepts.
- Practical assignments in writing advertising scripts.
- Practical projects for producing radio advertisements.
- Classroom participation and discussions.

### 33. Learning and Teaching Resources

Required textbooks (curricular books if any)	<b>Ali Ajwa – <i>Advertising and Media.</i></b>
Main references (sources)	<ul style="list-style-type: none"> <li>• Abdul Basit Abdul Wahab – <i>Radio and Television Advertising.</i></li> </ul>

<b>7. Course administrator's name (mention all, if more than one name)</b>					
Issa Ayal Majeed Reham Habib Sbeit					
<b>8. Course Objectives</b>					
Introducing students to the processes of producing, designing, and laying out print newspapers in their various formats—full-size, half-size, and tabloid—as well as equipping them with a comprehensive understanding of how to design digital newspapers.					
<b>9. Teaching and Learning Strategies</b>					
1. Lectures. 2. In-class discussions.					
<b>10. Course Structure</b>					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
	2	Explains the concept of journalistic layout and reviews its historical development.	The concept of journalistic layout and its development	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Identifies the functions and characteristics of journalistic layout and analyzes their importance.	Functions and characteristics of journalistic layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Applies technical principles in designing newspaper pages.	Technical foundations of journalistic layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Analyzes the factors	Factors influencing journalistic	Theoretical (using	Student

		influencing journalistic layout styles.	layout styles	PowerPoint to support the lecture with images and videos)	engagement during the lecture
	2	Distinguishes between layout schools and applies selected models.	Layout schools adopted in newspaper design	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Uses digital design software to produce journalistic prototypes.	Learning design using digital software	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Creates journalistic designs using Adobe InDesign.	Practical applications using Adobe InDesign	Practical	Student engagement during the lecture
	2	Proposes methods for developing journalistic layout and printing.	Factors contributing to the development of journalistic layout and printing	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Employs typographic elements correctly in design.	Typographic elements in journalistic layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Designs newspaper headlines and positions them effectively.	The function and placement of headlines in newspaper pages	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Selects appropriate fonts to ensure readability.	Factors affecting the readability and clarity of typefaces	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Designs newspaper pages using a computer.	Practical application of page design using computers	Practical	Student engagement during the lecture
	2	Applies printing colors in a balanced manner in layout.	The use of printing colors in newspaper layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Organizes the basic elements required to produce a complete newspaper page.	Basic components of newspaper layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Evaluates personal knowledge and skills in journalistic layout.	First semester examination	—	Student engagement during the lecture
	2	Explains the importance of photography in journalistic layout.	The importance of photography in journalistic layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Distinguishes between types of images and applies	Types of images and their use in journalistic layout	Theoretical (using PowerPoint to	Student engagement during

		them in journalistic design.		support the lecture with images and videos)	the lecture
	2	Edits images using Adobe Photoshop.	Image editing using Adobe Photoshop	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Applies image and color processing techniques عملياً.	Practical application of image and color processing using Adobe Photoshop	Practical	Student engagement during the lecture
	2	Identifies magazine layout schools and applies them.	Magazine layout schools	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Uses typographic elements in magazine page design.	Typographic elements in magazine page design	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Applies various layout styles in magazine pages.	Methods of magazine page layout	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Designs magazine pages using Adobe InDesign.	Practical application of magazine page design using Adobe InDesign	Practical	Student engagement during the lecture
	2	Designs infographics that transform data into visual content.	Infographic journalism design	Practical	Student engagement during the lecture
	2	Uses color values to enhance infographic design.	The impact of color values on infographic design	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Explains the concept and development of electronic journalism.	The concept and development of electronic journalism design	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Distinguishes between different types of online newspapers.	Types of online newspapers	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Applies the principles of digital newspaper design on the web.	Principles of design and layout for digital newspapers on the web	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Employs layout techniques in online newspapers.	Layout styles for online newspapers	Theoretical (using PowerPoint to support the lecture with images and videos)	Student engagement during the lecture
	2	Produces electronic journalistic designs using Adobe InDesign.	Practical application of designing online newspaper layouts using Adobe InDesign	Practical	Student engagement during the lecture

## Course Description Form

8. Course Objectives

**Course Objectives**

□1- Knowing the basics of propaganda, rumors, psychological warfare and its types, and forming a future vision towards building models for propaganda campaigns

□2- This course deals with the study of the rumor, its most important definitions, types, and objectives, a historical introduction to propaganda and its concept, the psychological foundations of propaganda, its laws, objectives, and divisions according to multiple and varied criteria, in addition to the methods of propaganda and its appeals, and the relationship of propaganda to other types of propaganda.

□3- The course also addresses the historical introduction to psychological warfare, its concept, methods, means, and goals, and an overview of psychological warfare in the First and Second World Wars and the Cold War, in addition to the relationship of psychological warfare to patterns of psychological dealing such as propaganda, brainwashing, and political poisoning.

4- Introducing the importance of the spread of rumors and negative propaganda in our society

and ways to confront them

## 9. Teaching and Learning Strategies

### Strategy

- 1- Explaining the importance of rumors and propaganda in our society and finding solutions to them in a scientific way
- 2- Acquiring analytical and critical skills and abilities by studying the course and comparing it to society
- 3- Preparing an educational plan for media students that keeps pace with the developments that Arab countries are enjoying in this field.

## 10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Acquiring knowledge	Rumors	Theoretical lectures, explanation and discussion, presented on the data show Brainstorm	Daily and monthly tests And final tests
1	2	Acquiring knowledge	Classification of rumours	Theoretical lectures, explanation and discussion, presented on the	Daily and monthly tests And final tests

## 11. Course evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, and written exams, reports, research papers, etc.

Evaluation is done through:

- 1- Discussion by asking questions about the lecture topic.
- 2- Quick tests and brainstorming.

- 3- Daily preparation for the lecture.
- 4- Daily preparation, discussion and daily activity.
- 5- Participate in the lecture and observe the student's behavior.
- 6- A written exam at the end of each semester

## 12. Learning and teaching resources

<b>Required textbooks (methodology, if any)</b>	<b>Propaganda and psychological warfare: Al-Dalaeen, Nidal Falah and others</b> <b>Psychological warfare: Sumaisem, Hamida</b>
<b>Main references (sources)</b>	<b>Psychological warfare and terrorism, A. Yassin Taha Musa</b>
<b>Recommended supporting books and references (scientific journals, reports....)</b>	<b>Psychological warfare, opinion and belief: Nasr, Salah</b> <b>Bombarding minds: Taylor, Philip, translation, Sami Khashaba</b> <b>Propaganda and Persuasion: Al-Abd, Atef Al-Adly</b>
<b>Electronic references, Internet sites</b>	<b>The most important specialized websites concerned with topics of propaganda, rumors, and psychological warfare at the present time.</b>

<p>student-written topics on a private training site.</p> <ul style="list-style-type: none"> <li>Equip students with skills in creating and producing media content using applications for text, image, and video editing/montage.</li> <li>Produce media content created by students (texts, images, video) using digital applications.</li> </ul>	
---	--

**9. Teaching and Learning Strategies**

<b>Cognitive Objectives</b>	1. Enable students to understand theoretical material better. 2. Prepare students to be future journalists capable of dealing with updated digital technology. 3. Enable students to discuss all topics related to electronic newspapers.
<b>Skill-based Objectives</b>	Use editing and montage applications; conduct research and verify information; use digital devices optimally for positive purposes rather than just entertainment/communication; produce useful digital media content (news, awareness, cultural, marketing, etc.).
<b>Teaching Methods</b>	Teaching stages of preparing electronic journalistic material and using interactive media; teaching analysis, evaluation, and interpretation skills for media messages via conscious media thinking; teaching verification skills for information published on websites; manufacturing and producing media material and publishing it via social pages and personal/group blogs.
<b>Assessment Methods</b>	1. Weekly tests and monthly assignments. 2. Grades for interaction within the lecture. 3. Graded evaluation of weekly/monthly assignments and interactive attendance.

**10. Course Structure**

<b>Week</b>	<b>Hours</b>	<b>Required Learning Outcomes</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>

#### 10. Course Structure

<b>Week</b>	<b>Hours</b>	<b>Required Learning Outcomes</b>	<b>Unit or subject name</b>	<b>Learning method</b>	<b>Evaluation method</b>
<b>1</b>	<b>٢</b>	<b>Scenario</b>	<b>The first beginnings of the scenario</b>	<b>theoretical</b>	<b>Students ' answers in the lecture</b>
<b>2</b>	<b>٢</b>	<b>Scenario</b>	<b>Scenario definition and conditions</b>	<b>theoretical</b>	<b>Students ' answers in the lecture</b>

3	۲	Scenario	Screenwriter Terms	theoretical	Students ' answers in the lecture
4	۲	Scenario	Screenwriting Template	practical	Written samples from students
5	۲	Scenario	Characteristics of a successful text	theoretical	Students ' answers in the lecture
6	۲	Scenario	Screenwriting app	practical	Written samples from students
7	۲	Scenario	Dramatic structure in the scenario	theoretical	Students ' answers in the lecture
8	۲	Scenario	Types of dialogue	theoretical	Students ' answers in the lecture
9	۲	Scenario	Application of dramatic construction in the scenario	practical	Written samples from students

10	۲	Scenario	Application of dialogue in the scenario	practical	Written samples from students
11	۲	Scenario	TV drama	theoretical	Students ' answers in the lecture
12	۲	Scenario	Application of television drama and writing it within the scenario forms	practical	Written samples from students
13	۲	Scenario	Decoupage	theoretical	Students ' answers in the lecture
۱۴	۲	Scenario	Application of decoupage in the scenario	practical	Written samples from students
15	۲	Scenario	Elements and components of a successful scenario	theoretical	Students ' answers in the lecture
16	۲	Scenario	TV directing	theoretical	Students ' answers in the lecture

17	۲	Scenario	Application of television directing in the scenario	practical	Writing Outcomes for Students
18	۲	Scenario	Freehand script writing	practical	Writing Outcomes for Students
19	۲	Scenario	Programming forms	theoretical	Students ' answers in the lecture
20	۲	Scenario	Free form programming training	practical	Writing Outcomes for Students
21	۲	Scenario	Freeform screenwriting	practical	Writing Outcomes for Students
22	۲	Scenario	Interview programs	theoretical	Students ' answers in the lecture
23	۲	Scenario	Writing interview scripts	practical	Writing Outcomes for Students

24	۲	Scenario	Writing different interview formats in the script	practical	Writing styles for students
25	۲	Scenario	TV scenario	theoretical	Students ' answers in the lecture
26	۲	Scenario	Character movement in time and space	theoretical	Students ' answers in the lecture
27	۲	Scenario	TV script writing	practical	Learning outcomes
28	۲	Scenario	Writing time– sensitive movement in a screenplay	practical	Learning outcomes
29	۲	Scenario	Writing the movement specific to the place in the script	practical	Learning outcomes
30	۲	Scenario	a test	theoretical	Test results

## Course Description Form

<b>34. Course Name:</b>	
The art of news reporting	
<b>35. Course Code:</b>	
<b>36. Semester / Year:</b>	
2020-2021	
<b>37. Description Preparation Date:</b>	
19-1-2021	
<b>38. Available Attendance Forms:</b>	
Lectures in class	
<b>39. Number of Credit Hours (Total) / Number of Units (Total)</b>	
60	
<b>40. Course administrator's name (mention all, if more than one name)</b>	
Name: Dr. Ahmed Mahdi	
<b>41. Course Objectives</b>	
Course Objectives	The course aims to precisely define the concept of broadcasting and television technologies and to identify their characteristics that distinguish them from other communication activities. This will enable students to understand broadcasting and television technologies in a new way, along with the terminology used, to empower them for optimal use and application at a professional level. Additionally, it focuses on critical evaluation at a theoretical level (study and research), positive reception and exposure, and achieving the highest levels of benefit and utility.
<b>42. Teaching and Learning Strategies</b>	

<p><b>Strategy</b></p>	<p>Familiarity with the terminology and concepts of radio and television technologies and their methods of use.</p> <ul style="list-style-type: none"> <li>- Definition of digital and analog broadcasting, the difference between them, and the concepts of virtual and augmented television.</li> <li>- Definition of types and stages of television development, including interactive television, cable television, and fiber optics, and their role in advancing radio and television broadcasting.</li> <li>- Awareness of the latest technological developments in the field of radio and television production.</li> <li>- Enhancing students' abilities to use radio and television technologies.</li> <li>- Improving students' knowledge of the parts and uses of all radio and television technologies inside and outside studios.</li> <li>- Training students to produce various television arts with the available technology.</li> </ul> <p>Training students on editing raw material using computer software programs.</p>
------------------------	---

<p><b>Learning and teaching methods</b></p>	<ul style="list-style-type: none"> <li>- Theoretical Lectures</li> <li>- Use of electronic presentation methods and sharing experiences</li> <li>- Training videos within the studios</li> <li>- Visits to a television channel</li> </ul>

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method

93.	2	The student understands an idea about the Concept of Broadcasting and Television Technologies to	Concept of Broadcasting and Television Technologies	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
94.	2	The student Knows what are Stages of Development of Technologies in Broadcasting and Television	Stages of Development of Technologies in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
95.	2	The student Understands how employ the functions of technologies	Functions of Technologies in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
96.	2	The student understands an idea about the technologies	Utilizing Technologies in Program Production	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
97.	2	The student Knows about Broadcasting Technologies Inside and Outside Studios	Broadcasting Technologies Inside and Outside Studios	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.

98.	2	The student knows what are the Television Technologies Inside and Outside Studios	Television Technologies Inside and Outside Studios	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
99.	2	The student understands an idea about the topic	Editing Techniques in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
100.	2	The student recognizes Directing Techniques	Directing Techniques in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
101.	2	The student understands mechanism operation	Microphones in Broadcasting	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
102.		The student understands the role of camera in television	Cameras in Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
103.	2	The student learns	Effects in Broadcasting and Television	Delivering lectures, discussions, and conducting	The written and oral tests and direct questions.

				practical training in person.	
104.	2	The student Knows	Technical and Artistic Terminology in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
105.	2	The student learns	Newsroom Technologies in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
106.	2	The student knows	Digital and Analog Broadcasting and External Television Transmission Technologies	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
107.	<b>The end of the 1<sup>st</sup> Semester</b>				
108.	2	The student Understands Control Rooms in Broadcasting and Television	Control Rooms in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
109.	2	The student Understands camera movement	Camera Movement and Types of Shots	Delivering lectures, discussions, and conducting practical	The written and oral tests and direct questions.

				training in person.	
110.	2	The student knows lighting techniques	Lighting Techniques in Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
111.	2	The student understands the décor techniques	Decor Techniques in Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
112.	2	The student recognises	Audio and Visual Recording Means and Tools	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
113.	2	the student recognises	Interactive and High-Definition Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
114.	2	The student understands an idea about the topic	Satellite Broadcasting and Radio	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
115.	2	The student	Soundproofing in	Delivering	The written and

		Knows what is Soundproof	Broadcasting and Television	lectures, discussions, and conducting practical training in person.	oral tests and direct questions.
116.	2	The student knows	Script and Screenplay Writing Techniques	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
117.	2	The student knows	Broadcasting Room in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
118.	2	The student learns Archiving Techniques	Archiving Techniques in Broadcasting and Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
119.	2	To enable student to realize the importance	Optical Fibers and Transmission/Reception Technologies	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
120.	2	The student knows what is	Internet Radio	Delivering lectures, discussions, and conducting practical training in	The written and oral tests and direct questions.

				person.	
121.	2	The student lea	Cable Television	Delivering lectures, discussions, and conducting practical training in person.	The written and oral tests and direct questions.
122.	Final Examinati				
<b>43. Course Evaluation</b>					
Assessment Methods					
<ul style="list-style-type: none"> <li>- First Exam (10)</li> <li>- Practical and Daily Assignments (10)</li> <li>- Second Exam (10)</li> <li>- Practical and Daily Assignments (10)</li> <li>- Final Semester Exam (60)</li> </ul>					
<b>44. Learning and Teaching Resources</b>					
Required textbooks (curricular books, if any)			Production of Programs for Studio and Television, by Al-Jiooshi, Dar Al-Kitab Al-Jami'i, Al-Ain, United Arab Emirates, 2017		
Main references (sources)			Modern Television Techniques and the Form and Content of Programs, by Jabbar Al-Abidi, Abadi Center for Studies and Publishing, 1996, Sana'a		
Recommended books and references (scientific journals, reports...)			Arab Broadcasting Magazine, Arab Broadcasting Magazine - Scientific Researcher Journal, Television Production - Dayman Abdul Rahman, 2016		
Electronic References, Websites			Website of the Arab Organization for Education, Culture, and Science (UNESCO)		
<p>13. Course Development Plan: 1. Address modern broadcasting and television technology topics.</p> <p>2. Review the latest scientific and technological developments in the field of television technologies and incorporate them into the curriculum.</p> <p>3. Participate in courses and workshops related to television production.</p>					

4. Organize visits to television institutions.
